HOUSE JOURNAL

SESSION 1967

FIRST DAY

HOUSE OF REPRESENTATIVES

February 8, 1967

Be it remembered that the Constitution of the State of North Carolina fixes the date for the meeting of the General Assembly of North Carolina as being on Wednesday after the first Monday in February, biennially, the date of this meeting being February 8, 1967.

This day, in compliance with the provisions of the Constitution, the members-elect of the House of Representatives assemble in their chambers in the State Legislative Building in the City of Raleigh and at twelve o'clock noon, in accordance with the statutes are called to order by the Honorable Thad Eure, Secretary of State.

Prayer is offered by the Reverend Thomas L. Rich, Jr., Pastor of the First Baptist Church, Fairmont, North Carolina.

The roll is called and the following members-elect answer to their names, appear with proper certificates of election, take and subscribe to the following prescribed oath of office, which is administered by Chief Justice R. Hunt Parker of the Supreme Court of North Carolina.

OATH FOR MEMBERS OF THE HOUSE OF REPRESENTATIVES SESSION 1967

"I do solemnly swear that I will support the Constitution and laws of the United States, and I do solemnly and sincerely swear that I will be faithful and bear true allegiance to the State of North Carolina, and to the constitutional powers and authorities which are or may be established for the government thereof; and that I will endeavor to support, maintain, and defend the Constitution of said State not inconsistent with the Constitution of the United States, to the best of my knowledge and ability; and I do solemnly and sincerely swear that I will faithfully, truly, and honestly perform my duties as a member of the House of Representatives of the North Carolina General Assembly to the best of my knowledge and ability, and agreeably to the Constitution and laws of the State, so help me, God."

Oath administered February 8, 1967.

Sworn to and subscribed before me this 8th day of February, 1967.

S/ R. HUNT PARKER

Chief Justice of the Supreme Court of North Carolina.

One hundred twenty members having answered the roll call, the Secretary of State declares a quorum is present.

The Secretary of State announces that the first order of business is the election of a Speaker, and declares that nominations are in order:

ELECTION OF OFFICERS

Representative McMillan of Robeson places in nomination the name of Representative David M. Britt for Speaker of the 1967 House of Representatives.

"Mr. Chairman, honored guests, fellow members of the House of Representatives: It is my particular pleasure and privilege to nominate for your consideration as Speaker of the 1967 House of Representatives my good friend and colleague, the Honorable David Maxwell Britt of Robeson.

Because of the absence of the veto power on the part of the Governor of North Carolina, and for other reasons, the General Assembly of this State has often been referred to as the most powerful in the nation.

The exercise of this tremendous power in the best interest of all of the people of North Carolina is a responsibility of awesome proportions and requires leadership of the finest caliber.

The Speaker of this House of Representatives, then, must be a man of the highest integrity and ability, thoroughly versed in the history of our great State, with a profound knowledge of the needs of our people and of their willingness to provide for those needs. He must have the complete confidence of every member of the House, a thorough knowledge of the character and ability of each of us, and a fine sense of humor, in order that he might keep us from each other's throats in the heat of legislative battle. He must have at his fingertips, for instant use, all of the rules of this House, all of the rules of parliamentary procedure, and all of the rules of human nature, together with the judgment, the ability and the courage to use them to enact good legislation and to thwart that which is not in the best interest of our people.

Mr. Chairman, the lady from Wayne, gentlemen of the House, I submit to you that the Honorable David Maxwell Britt of Robeson has all of these qualifications and many more.

Mr. Britt was born in the fine little Robeson County Town of McDonald, a little over 21 years ago, the oldest of the seven children of Dudley H. and Martha Mae Hall Britt, whose forebears go far back in the history of that section of the State, having first settled in Robeson County in the early seventeen hundreds.

Helping his father run a country store and farm during the depression years was good training for this energetic youngster, who, in the not too distant future, was destined to play a large part in shaping the State's more than two billion dollar budget, as Chairman of the House Appropriation Committee and as a member of the Advisory Budget Committee.

Upon his graduation from Lumberton High School, he attended Wake Forest College and Wake Forest Law School as a self-help student. He passed the bar examinations in August of 1937, before he was 21 years old. Being too young to meet the State's requirement for a law license, he had to wait several months to begin his practice.

He is still a serious student of the law — from the legislative process, to the courts of justice — having served as a practicing attorney, as a solicitor, as a member of the General Statutes Commission, as a member of the Courts Commission, and as Chairman of the Committee on Courts and Judicial Districts of this House, with much of the responsibility for the current major changes in our State's judicial structure.

The people of his hometown of Fairmont, his home county of Robeson, and throughout the State of North Carolina have called on the many talents of David Britt, and he has responded most generously and ably, serving his local church, the First Baptist, for many years as an officer and Sunday School teacher, his community as chairman at one time or another of almost every worthwhile activity, including four years as Chairman of the school board.

His successful direction of local and county affairs earned for him the Adrian B. McRae Award as 'Man of the Year' for Robeson County in 1957 and attracted the attention of leaders throughout the area, who entrusted him with ever broader and heavier responsibilities, including that of Governor of his district of Rotary International, Chairman of the Democratic Party of Robeson County, member for two terms of the State Democratic Executive Committee, Chairman of the Board of Trustees of Southeastern General Hospital and Vice-Chairman of the Board of Trustees of North Carolina Cancer Institute, Chairman of the Robeson Baptist Association, member of the General Board of the Baptist State Convention, member of the Board of Trustees of Wake Forest College, and President of its alumni association.

Mr. Britt served his country during World War II as a private in the United States Army and is a member of the American Legion.

The finest thing he ever did was to marry the former Louise Teague of Fairmont and raise three fine daughters and one fine son.

There are always many aspirants for this high office and usually there are several actual candidates.

Why, then, did David Britt receive the nomination of the Democratic Caucus unanimously and without even the mention of any other candidate?

There are many members of this House who have outstanding records of public service and are highly capable leaders in their own right.

Why, then, have these same men, without exception, tacitly agreed even as long as four years ago that David Britt would be their Speaker in 1967?

I think the answer lies in a compelling desire on the part of this unusual man to render outstanding service in whatever he may undertake — a desire that drives him to work harder than anyone I have known to gain a thorough knowledge of the subject at hand, and then to make his decisions and carry out his plans with the confidence and the ability that can come only to one who has such a thorough knowledge and a strong reservoir of faith in the Supreme Being.

Mr. Chairman, fellow members of the House, it is my considered opinion that the Honorable David Maxwell Britt of Robeson is the best qualified man available for Speaker of the 1967 House of Representatives and, if elected, he will make one of the ablest Speakers the State has ever known.

I, therefore, am proud to place his name in nomination for your consideration for this high office."

S/ R. D. McMILLAN, JR.

The nomination is seconded by Representatives Hamrick and Jernigan.
"Mr. Secretary of State, and Members of the House:

I would like to take just a moment to relate to you some of my impressions of the abilities and character of the gentleman who has just been nominated for Speaker of the 1967 House of Representatives.

It was during the 1961 General Assembly that I became acquainted with David Britt. He was then serving his second term as a member of the House. I had the privilege of serving with him on a Judiciary Committee which handled a great number of bills considered at that General Assembly. We had numerous meetings of the committee which then held its sessions in the Supreme Court Clerk's Office in the Justice Building. After very few of the meetings of the committee, I was tremendously impressed with Mr. Britt's knowledge of the law and the enthusiasm with which he discharged his duties.

When the 1963 General Assembly came along it was not surprising that the Speaker appointed David Britt Chairman of the important House Committee on Appropriations. Again, it was my privilege to serve on his committee and subcommittee. It was during his leadership of that committee that I became so impressed with his wide knowledge of the fiscal affairs of the State of North Carolina and its many agencies. More importantly, I found that he did not show partiality to any particular area of the State or to any particular agency.

Then, in the 1965 Session of the General Assembly, David Britt was again given an assignment of great importance — that of heading the Committee on Courts and Judicial Districts. It thus became his responsibility to manage the legislation which gave North Carolina a Uniform System of Courts. Those of you who served in that session will recall the outstanding job which he did in that regard.

I have mentioned only a few of the services he has rendered our State and there have been many more. In all of them, however, he has demonstrated his dedication to the tasks assigned to him. I have also mentioned only a few of the personal qualifications which our next Speaker possesses. In addition to these, he possesses a friendly manner, a willingness to help, and a great love for North Carolina.

I once heard David Britt describe himself as a 'one-gallus small-town lawyer'. If this is a correct description, then we need more one-gallus small-town lawyers like him. I know of no person who is better qualified, by experience and otherwise, to provide the type of leadership which I think will be required in this Session of the General Assembly.

"It is my happy privilege to second the nomination of The Honorable David M. Britt, Representative from Robeson County, as Speaker of the 1967 House of Representatives."

S/ CLAUDE M. HAMRICK

"Mr. Secretary of State, Ladies and Gentlemen of the House, distinguished guests and citizens of North Carolina:

It is with a great deal of pleasure and much pride that I second the nomination for the next Speaker of the House of Representatives. This man is certainly no stranger to many of us, as some thirty years ago he and I, as well as others of you present, walked the campus together at Wake Forest College. Little did we know then that in the year 1967 this distinguished public servant would be our nominee for Speaker, the third highest office in our State. In those years we did realize, however, that he possessed exceptional ability as a leader of men. This quality of leadership he has continued to exhibit in his own quiet, unassuming way. Those formative years were important ones for him — his straight-forwardness — his integrity — his character were all moulded by such great teachers as Dr. Billy Poteat, Dr. Gully, Dr. Kitchin and others.

During the years men with less determination have fallen by the way. Our next Speaker, on the other hand, has increased in stature by participating actively and unselfishly in church and civic affairs — never failing to provide the right leadership at the right time. Always thorough, always honest in his work, he knows no code except the Golden Rule, which all of us were commanded by our Lord to follow.

Representatives Andrews, Auman, Bailey, Barbee, Barr, Baugh, Beatty, Bowles, Britt of Johnston, Bryan, Bumgardner, Bunn, Burden, Burrus,

I have had the distinct honor of serving in the General Assembly under two speakers — two whom I had considered unsurpassed: The Honorable Clifton Blue and the Honorable Pat Taylor. North Carolina, being the great State that she is, has always been able to produce able leaders at the right time. Our State has again risen to the occasion — it has produced that leader — a man who can handle the weighty problems which we face. Fairmont, Robeson County, Wake Forest College — all three have had a hand in moulding this leader. I speak of no other than the Honorable David Britt."

S/ R. H. JERNIGAN, JR.

The Chair recognizes Representative McKnight who places in nomination the name of Representative Don H. Garren of Henderson County for Speaker of the 1967 House of Representatives. The nomination is seconded by Representative Johnson of Cabarrus.

The Chair, having declared the nominations closed, requests that the roll of the House be called and the following members vote for Representative Britt:

Chase, Church, Clark of Bladen, Clark of Union, Collier, Collins, Cul-

S/ Joseph Branch

Associate Justice of the Supreme Court of North Carolina.

Mr. Speaker Britt approaches the dais and makes the following remarks:

"Many have said this General Assembly will face more difficult problems than any General Assembly in the history of our State. I agree that our work is cut out for us but I sincerely believe that we are equal to the task.

Let us be reminded again that as the most powerful legislative body in America, we have no one to correct most of the errors we might make. The Governor of our State has no veto power and the Courts can set aside only those laws that violate the Federal or State Constitution. Therefore, it is important that we do not err.

The problems that we face have answers. It behooves us to seek and to find the *right* answers. In many instances the right answer will not be easy or popular, but let us have the diligence to seek the right and the courage to enact it into law.

It is not all-important that you or I be re-elected to this House or that we be elected to any other office, but it *is* all-important that we be faithful in discharging the responsibility that is now ours. In the discharge of our duties let us keep our eyes fixed on 1967."

Mr. Speaker Britt assumes the duties of the Chair and announces that nominations are in order for Principal Clerk of the House of Representatives.

Representative McMillan of Wake places the name of Mrs. Annie E. Cooper of Wake County in nomination for Principal Clerk, seconded by Representative Kiser.

LEGISLATIVE MESSAGE

of

THE HONORABLE DAN K. MOORE

GOVERNOR OF NORTH CAROLINA

The State Legislative Building

Raleigh, North Carolina

12:30 p. m., Thursday, February 9, 1967

"Mr. President, Mr. Speaker, and Members of the General Assembly of North Carolina:

The people of North Carolina have selected you as their representatives to help formulate the programs that will give impetus to this State in the coming biennium and on into the future. Knowing of your genuine concern and interest in North Carolina, I welcome each of you to Raleigh. I look forward to close association with you, to your counsel, and to your assistance in building a better State.

Today, perhaps more than on any other day in our history, North Carolina is a land of opportunity for all. Two years ago, I stood here and advocated programs designed to move North Carolina toward the total development of our abundant resources. My programs, then as now, were ambitious. They were generally accepted and improved upon by the 1965 General Assembly. I have sought to implement my programs to the fullest expectations of those who gave them life.

As a result of the careful administration of programs approved by the 1965 General Assembly:

- more of our young people are in the public schools and they are receiving a better education. They are staying in school longer and they are doing better in the college or technical institute of their choice.

- the problems of disease and infirmity are of less burden to individuals and to communities. Treatment and care are improved at our institutions. Rehabilitation now has greater personal meaning to many.

- we have more highways. They are becoming safer and more beautiful. Recreational and cultural advantages are closer to all and are being utilized more fully.

— sound economic growth opportunities are increasing. More and better jobs are available. The standard of living is improving. Our young people can now stay in North Carolina and prosper.

Yes, tremendous forward strides are being made. But, this is not the time to relax our efforts. North Carolina's greatness in many areas is still to be reached. Indeed, if anything, we must accelerate our pace to take full advantage of the prosperity and the opportunities which are ours today. My recommendations to you this afternoon are designed with that purpose in mind.

In my Budget Message, on Monday evening, I will transmit the budget documents, appropriate bills, revenue estimates and other vital fiscal information including my recommendations for capital improvements, tax relief, economic development, long-range planning, improved management, and other matters.

In the coming weeks and months, there are major problems to be solved. There are now more than five million North Carolinians. Our people are congregating more in urban areas. Our communities are becoming more industrialized. Our farms are becoming more mechanized. Education, transportation, and society, itself, are changing. These things and others offer challenges to stimulate our imaginations and our abilities.

OUR FIRST RESPONSIBILITY

Education is the first concern and responsibility of this administration. Since my youth, I have been aware of the importance of education to our people. It is the foundation of progress and the cornerstone of hope for a better tomorrow. These are not merely cliches. They are statements of facts which have long been realized by governors, legislators, and other North Carolinians.

I personally want to pay tribute, not only to members of the General Assembly, but to everyone who has contributed to the cause of education. From the University at the top of our public education structure to the first grades in schools throughout the State, a wonderful job is being done in educating the youth of North Carolina. Throughout the system, teachers and administrators are to be praised for their wise utilization of the resources given them to mould young North Carolinians into thinking men and women.

By no means, do I want to leave the impression that we have done enough for education. This certainly is not the case. North Carolina, in spite of a decade of intensified educational progress, still has a long way to go to attain the system we desire. Because of our needs for today and tomorrow, I am recommending record biennial budgets for the public school system, the system of community colleges and for the institutions of higher learning. More than 70 per cent of every general fund tax dollar will go into public education.

THE PUBLIC SCHOOL SYSTEM

North Carolina has every right to be proud of its public school system. Although North Carolina ranks forty-second in per capita personal income, we rank third in the nation in the per cent of state tax dollars provided the public schools. Unlike most other states, the State of North Carolina — not local government — has undertaken the tremendous responsibility of basic support of the system.

We are fortunate to have available sufficient revenues to meet the major needs of our growing public school system. In my Budget Message, I will proudly recommend for the public schools the largest appropriation of general fund tax dollars ever presented to a General Assembly of North Carolina. I will recommend total general fund appropriations of \$784,335,354 (including retirement and social security, and debt service), an increase of \$130,494,390, or 19.96 per cent above comparable expenditures for 1965-67.

It is imperative that this money be spent wisely to improve to the greatest extent possible the educational opportunities of our young people.

My first recommendation is for a major increase in salaries of public school teachers and other personnel employed under the nine months school fund, as well as vocational education teachers. My recommendation will provide public school teachers with an average increase of 8.73 per cent in 1967-68, and an additional 8.85 per cent in 1968-69, for a biennial total increase of 17.58 per cent. This was the exact recommendation of the State Board of Education.

These increases will raise the minimum annual salary for an 'A' certificate holder from \$4,227.25 in 1966-67 to \$5,004.25 in 1968-69. North Carolina can now reach its long sought goal of a \$5,000 minimum annual salary for beginning teachers. The minimum annual salary for a graduate certificate holder will be raised from \$4,745.25 to \$5,605.50, to which can and should be added local supplements. When added to the 10 per cent legislative raise given teachers during this biennium, it will mean more than a 27 per cent salary increase in four years, the largest given during any administration in the last twenty years.

In addition, I recommend appropriate pay increases for other school personnel. These include 50 per cent, from \$10 to \$15 per day, for substitute teachers; five per cent in 1967-68 and an additional five per cent the following year for principals; five per cent for superintendents, assistant superintendents, supervisors, clerical assistants, property and cost clerks, attendance counselors, clerks in schools, mechanics, janitors and maids; and \$10 per month for school bus drivers. In some categories, it will be necessary to appropriate some additional funds to comply with the new federal minimum wage law which became effective February 1.

I also recommend:

— the hiring of an additional 65 special education teachers for each year of the biennium (130 total).

— additional teacher scholarship loan funds to assist needy and worthy students.

— additional funds for vocational rehabilitation services.

— more administrative assistance.

— the continuation of the Shakespeare and Sandburg projects.

— \$400,000 for a thorough study by the Board of Education and the Superintendent of Public Instruction on the feasibility of public kindergartens.

In continuing our efforts to provide free textbooks, I recommend the elimination of the present \$5.00 fee paid by high school students. The 1965 General Assembly approved my request to eliminate fees for elementary books. Your enactment of a free high school textbook system would put North Carolina in the forefront of the nation in providing free textbooks throughout the public school system. This will be another long time dream come true for North Carolina.

Our State must continue its efforts in educational research, development and experimentation. I recommend the continuation of the Governor's School and of the comprehensive school improvement project which has been conducted for some time within the Department of Public Instruction.

The Learning Institute of North Carolina has gain favorable recognition for its pioneering efforts in educational innovation. Many of its objectives, however, have been given to the new Regional Education Laboratory for the Carolinas and Virginia. LINC was instrumental in setting up this new federal funded, nonprofit organization. The Learning Institute still has a major role to play, however, and I recommend it continue to press forward with educational research. I also recommend that state funds utilized by LINC be placed under the control of the State Board of Education.

If the State Board of Education recommends continuation of the advancement school, I will endorse its position.

We must ever seek to improve and better utilize our public school educational resources. The future demands that North Carolina provide its young with the best educational opportunities possible. In order to give us direction and creative leadership, I recommend that you authorize the appointment of a 'Blue Ribbon' Commission to study all aspects of the public school system in North Carolina. This commission should review our school policies, programs and goals in light of present and future needs. A resume of its findings and any necessary recommendations should be made to the Governor and the 1969 General Assembly.

COMMUNITY COLLEGES

The community college system, with its technical institutes and industrial education centers, is among the most valuable educational resources of our State. Educational benefits — from learning to read and write to acquiring highly technical skills — are available to all at these institutions. Con-

siderable progress has been made within the system during the present biennium. Its educational role will increase. In fact, during the next biennium, it is estimated that present enrollment of 22,892 full-time equivalent students will almost double.

I recommend a substantial increase in appropriations to meet expected needs. I also recommend the conversion of Wayne Technical Institute to a community college, the establishment of four new branch units, and an increase for new industry training programs. Beyond this, I strongly recommend that the existing institutions be strengthened and well established before any further expansion of the system is authorized.

For community college teaching personnel, I recommend salary increases of eight per cent in 1967-68, and an additional four per cent in 1968-69. I also recommend a five per cent increase, beginning fiscal 1967-68, for non-instructional personnel.

HIGHER EDUCATION

Higher education in North Carolina is today at a crossroads. In one direction is the continued orderly development of our institutions, full utilization of our higher education resources, and attainment of defined goals by set standards. The other direction goes off into the unknown, leading perhaps to unwise duplication, unnecessary rivalry for limited appropriations and a general weakening of our state supported higher education system. The direction North Carolina takes, ladies and gentlemen, is for you to decide in the months ahead.

Two years ago, I recommended and the General Assembly approved a reorganization of the State Board of Higher Education. The reorganization was made to enable the Board to provide affirmative and creative leadership for public higher education. Specific responsibility for formulating statewide long-range higher educational plans was assigned to the Board.

In the current biennium, the Board has undertaken, with my complete support and with the assistance of the University and each of our senior college presidents, a thorough study of state-supported higher education. The study encompasses state objectives and goals, enrollments, admissions, financing and the future of our predominantly negro colleges. This study will not be completed until 1968 but I will have an additional message on the findings and recommendations thus far later in this Session.

The demands on our system of higher education are growing. Our University, with its four campuses, and our twelve four-year colleges now have enrolled approximately 59.7 per cent of the students attending college in North Carolina. Numerically, enrollment at these institutions is expected to reach 67,294 full time equivalent students by 1968-69, an increase of 25 per cent over current budgeted enrollment.

Each state-supported institution of higher learning has an increasingly important part to play in our efforts to insure every North Carolinian the opportunity to attend a college of exceptional quality. While all institutions must develop to the fullest, I remain convinced of the soundness and the many advantages of the one-university concept. It has served and continues

to serve this state well and I remain determined to oppose any effort to deprive the people of North Carolina of the positive benefits of consolidation. No major change in our system of higher education should be made until the study now under way is completed, and the future of our system of higher education is clearly charted.

The University, itself, is not above improvement. It must continue to improve all of its services to the people of this State. In this light, I commend for your consideration the report of the Commission on the Study of the Board of Trustees of the University of North Carolina. The Commission was chaired by former Governor Luther Hodges and was made up of outstanding North Carolina citizens. I will have additional comments on this report in a later message.

At the University and throughout our system of higher education, there is a need to strengthen faculty and administration. We must keep at our institutions outstanding scholars who can contribute to the development of our young people and we must bring additional outstanding professors to our campuses.

Therefore, I recommend a substantial appropriation for adjustments in the salaries of academic and administrative personnel in higher education, including the School of the Arts. The distribution of the funds is to be made at the discretion of institutional heads. My recommendations provide for salary increases ranging from seven to nine per cent in 1967-68, and an additional four per cent during the second year. The more disadvantaged institutions will benefit most from these increases.

Increases are recommended to further strengthen the staff of the Board of Higher Education.

I also recommend appropriations to improve institutional research and development offices, expand highway safety research, improve the student-teacher ratio in graduate programs, and implement new research and graduate programs.

My recommendation for the biennium represents a 39.5 per cent increase in operating appropriations for state-supported higher education. When combined with the substantial increases granted by the 1965 General Assembly, it will mean that we have increased biennial appropriations for higher education by 92.5 per cent over the level of spending in 1963-65. In addition, in my Budget Message, I will recommend a large appropriation for capital improvements at our institutions of higher learning.

CULTURE

North Carolina has long been recognized for its cultural achievements. We lead the nation in the per cent of tax funds spent on the arts. North Carolina had the first State Symphony. It was the first state to finance art purchases for our people, to support outdoor dramas, and to appropriate funds for a theater building. Our North Carolina School of the Arts is unique and has attracted international attention.

Now is the time, I believe, to consider plans for construction of a new State Art Museum Building. This structure must be a building which is, itself, a work of art. It must be large enough to house the valuable art collection North Carolina has now and which, I am confident, will continue to grow. This building could be financed jointly by state and private funds. I may have more to say on this matter later in the Session.

Carrying forward this general interest in the arts, I last year appointed a group of outstanding citizens to serve as a North Carolina Arts Council. It is conducting a thorough and complete survey of all cultural resources in the State. North Carolina has need for such a clearing house of information and service for all the arts. I recommend that the North Carolina Arts Council be made a statutory committee to serve this purpose.

Since moving to Raleigh, Mrs. Moore and I have come to love the Executive Mansion on Blount Street. It does, of course, belong to the people of North Carolina, and, as such, it should be preserved and maintained in the finest traditions of our State. With this in mind, my wife early called a group of interested citizens together, and, on the basis of the group's recommendation, I appointed an Executive Mansion Fine Arts Committee. This committee, assisted by the Department of Archives and History, has made an inventory of the furnishings there, completed a new history of the building, and has solicited more than \$57,000 in private gifts for the enrichment of the Mansion. In order to carry forward this work, I recommend the creation of a permanent Executive Mansion Fine Arts Committee.

HEALTH AND HOSPITALS

Tremendous progress is being made in physical and mental health services to the people of North Carolina. We must now take advantage of the many additional opportunities available to improve health care for our citizens. However, we must plan wisely the utilization of the funds we have and avoid unnecessary duplication. Greater coordination among various state agencies in this area is essential.

With these facts in mind, I recommend an increase of 22.3 per cent in general fund appropriations for health and hospitals. These appropriations will assist greater numbers of North Carolinians through programs of the State Board of Health, the Medical Care Commission, the Department of Mental Health, the four tuberculosis sanatoriums, and the North Carolina Memorial Hospital and Psychiatric Center.

Special attention must be given to the care and treatment of our mentally ill and retarded. Community mental health centers have proved their value and I recommend a substantial increase in grants for use in this area. At our institutions, needs are for personnel and service. I recommend funds for enough personnel to permit a 2.1 to 1 patient-employee ratio. I also recommend increases for medical care and treatment.

Sites for the three alcoholic rehabilitation centers authorized by the 1965 General Assembly have been selected at Greenville, Asheville, and Butner. Plans for the center at Butner are near completion. In view of needs in this area, I recommend that the five cents per bottle fee on alcoholic bev-

erages authorized by the last Legislature be continued. I also recommend that sufficient funds, available because of this income, be used for research in the field of alcoholism and the treatment of alcoholics.

The enactment of the Medicare Program has required complete review of health services provided or purchased by state agencies and institutions. Title XVIII, which provides hospitalization and certain other services for citizens sixty-five years or older, has been implemented smoothly by the State Board of Health. About 97 per cent of the state's general hospital beds have been certified for medicare participation.

There is an obvious need for all state agencies concerned to establish a uniform schedule for medical fees and payments to hospitals. On the basis of a careful study, I recommend a uniform fee schedule be established and the necessary funds be appropriated. In addition, to assist the work of our local health departments in their many programs, I recommend an appropriation of \$800,000 for additional payments to the counties.

Careful consideration has been given to Title XIX of Medicare. This program is not limited to those age 65 or over, but embraces practically all persons identified as 'medically indigent'. To participate in Title XIX, North Carolina must initiate its program by July 1, 1970. Based on my studies thus far, I feel that we need additional time to understand precisely what will be required in new programs, new costs and new coverages. Therefore, I recommend that no action be taken on the implementation of Title XIX at this time.

However, I do plan to name a statewide committee to begin comprehensive health planning for the State of North Carolina. This committee will have representatives of all the major health disciplines and areas of service, as well as the users of health and medical care.

PUBLIC WELFARE

We are constantly seeking improvement of state services in meeting human need. For this reason I am pleased with the efforts of the Board and Department of Public Welfare under its new and vigorous leadership. It has increased operational efficiency of the Department and improved services to recipients of Welfare Funds. Improved administration now guarantees that the assistance checks are mailed regularly on the first day of every month.

To meet needs in the area of Public Welfare, I recommend appropriations to provide for the continuation of trends projected in case loads and in average grants to recipients of old age assistance, and to dependent children and aid to permanently and totally disabled. I also recommend funds to provide more medical assistance to Welfare recipients and to reduce administrative workloads. My recommendations represent a 26 per cent increase in state funds for the department.

THE BLIND AND THE DEAF

State services to the blind must be continued and strengthened. I recommend funds for additional administrative and rehabilitation personnel, for reduction in caseloads and increases in the average grants to blind recipients, and for meeting increased costs of medical services.

Trustees of the State Blind and Deaf Schools have studied the future of the institutions. They offered a joint proposal to concentrate all deaf students at the schools for the deaf. The Governor Morehead School would be used only for the blind. The proposal was completed after the recommended budget had been prepared. I believe, however, that the suggestion has merit and I recommend you give it your careful consideration.

CORRECTIONAL AGENCIES

The State must preserve and advance the progress made by the Board of Juvenile Correction, the Probation Commission, the Prison Department, and the Board of Paroles. All of these agencies are engaged in activities which have as their common aim the punishment and correction of court identified offenders and their successful rehabilitation as law-abiding members of free society. This fact calls for close coordination of their correctional services.

This administration has encouraged the state's correctional agencies to work together in developing a common philosophy and consistent practices. Probation, prisons, and paroles are now administered from one headquarters building. They are sharing basic services. These developments promoted more effective use of statistics, research, and evaluation to guide the efforts being made to make correctional services more responsive to the needs of offenders and the safety of society. I recommend funds to provide for further improvements in these agencies.

PUBLIC REGULATORY AGENCIES

I commend to you the work being done by the Department of Agriculture, the State Utilities Commission, the Industrial Commission, the Department of Insurance, the Department of Labor, the State Board of Alcoholic Control, the National Guard, and the Civil Defense Agency. I recommend appropriations for continuation and strengthening of the services of these agencies.

The reorganization of the State ABC Board approved by the 1965 General Assembly has resulted in a more effective administration of our ABC system. The work of the agency, however, has become more difficult as a result of the North Carolina Supreme Court's decision in the so-called 'brown-bagging' case.

I urge the General Assembly to give prompt and careful consideration to this matter. I recommend that the principle of control, which is the basis of our ABC system, be retained in any decision affecting the sale of alcoholic beverages. Since the sale of alcohol by the drink would violate that principle, I am opposed to it. However, if the principle of control can

be retained and if the so-called 'brown-bag' custom, which has developed over the years, can be legalized, I recommend this be done.

HUMAN RELATIONS

North Carolina is making continued progress in human relations. The calm and spirit of cooperation so necessary for continued development of our resources has prevailed. Opportunities of equal employment are improving in state government and in private business. The North Carolina Good Neighbor Council has continued its broad service to the State and has proven its ability to provide constructive leadership in this area.

In spite of our progress, there remains much work to be done in the area of human relations. While all North Carolinians have responsibilities in this area, the Good Neighbor Council must continue and strengthen its activities and assistance programs. In order to facilitate this, I recommend that the Good Neighbor Council be made a statutory agency.

LAW AND ORDER

The enforcement of law and the preservation of order are essential to North Carolina's progress and peace of mind. Because of its importance, I have devoted a great deal of my time to responsibilities in this area. I have formed and worked with a law and order committee of state officials with responsibilities in this area and of representatives of local law enforcement organizations. This committee has been a clearing house for information and has helped provide greater coordination of effort. In order to carry on this increasingly important work, I recommend that the law and order committee be made a statutory body.

The work of the committee has stimulated interest in a statewide coordinated program of law enforcement education. I strongly support this. At my request, Professor of Law Albert Coates, founder of the Institute of Government, and Edward Scheidt, former Commissioner of Motor Vehicles, as a consultant, are working on a coordinated program for the training of law enforcement officers at all levels which should be ready for consideration within the next several months.

While I am proud of law enforcement throughout the State, I am concerned over incidents of bombings of residences and intimidation of citizens. Such activities cannot be tolerated if the law is to have meaning for all. We cannot allow any individual or group of individuals to terrorize and intimidate a citizen of our State. I recommend that the act of burning a cross or other symbol, without the permission of the owner of the property, be made a felony under state law.

Certainly, there is no more dastardly crime than the bombing of an individual's home, be it a house or trailer, where he and his family may be sleeping. This is a despicable and cruel act which deserves the sternest punishment. In some respects, it is worse than first degree burglary, which now is punishable by death. I recommend to this General Assembly that the act of bombing occupied property be made a felony punishable by not less than imprisonment for 10 years or more than imprisonment for life.

In order to aid in the arrest and conviction of those guilty of these and other felonies, I recommend changes in our present reward statute, which is completely out-of-date and of little value. State law now provides for the Governor to offer a reward of not over \$400 for information leading to the arrest of an individual known to have committed a felony. I recommend this law be amended to authorize the Governor to offer a reward not to exceed \$10,000, not only for the arrest of a person known to have committed a felony, but also for information leading to the arrest and conviction of such person.

THE ADMINISTRATION OF JUSTICE

North Carolina can be very proud of the progress being made in improving and expediting the administration of justice. The State is indebted to the members of the Courts' Commission for their effective services. After twelve years of planning and development, new district courts are beginning to replace all courts in the State below the Superior Court. This new system of uniform courts will provide better administration of justice while relieving counties and cities of the cost of operating local courts.

I recommend that this General Assembly implement the establishment of the new appellate court authorized by vote of our people. If you take this action, we are prepared to proceed immediately to provide the necessary courtroom and offices in the state library building, the former home of the Supreme Court.

NATURAL RESOURCES

We must continue to protect and wisely utilize our abundant natural resources — land, water, air, forests, and wildlife. As our population continues to grow, these resources will become even more precious. The 1965 General Assembly authorized the Department of Water Resources to study needed legislation for improving water resources development and on ground-water conditions. The study is being completed and legislation will be prepared to provide for special needs in the State's different regions. I recommend your careful consideration of this study and of the legislation.

Open pit mining of phosphate in the coastal plain region has great economic promise for the development of this area but unfortunately it has raised questions concerning its effect on ground-water supply. At the request of the Board of Water Resources, the Governor and Council of State made funds available to hire internationally recognized consultants to make an evaluation. The consultants, after lengthy study, concluded that, unless proper controls are initiated, open pit mining could adversely affect the quality and quantity of water available. The consultants are available to discuss their report at your convenience. I recommend that necessary steps be taken in this Session to prevent misuse of the ground-water supply. Proper legislation will be introduced later.

For added efficiency, I recommend that the Board of Water Resources and the State Stream Sanitation Committee be consolidated as one new

board. This new board would have general supervision of all matters pertaining to our water resources and pollution abatement. In addition, I recommend that this new board be assigned the responsibility for abating air pollution under a new air pollution control law.

HIGHWAYS

I am pleased to report that North Carolina is presently in the midst of the largest road building program in its history. More than 400 projects were let last year. This represented nearly 4,000 miles of resurfacing, paving, widening, and major reconstruction. The total contract value was \$112.5 million, the largest for any single year in North Carolina history. This was accomplished in spite of a reduction in federal highway funds for the second half of the year.

Excellent progress is being made in the implementation of the \$300 million road bond issue which was authorized by the 1965 General Assembly and approved by the people that fall. By the end of last year, over 169 primary road projects, 1500 secondary road projects and 500 urban street improvement projects had been approved by the Highway Commission. Over \$30 million of bond work was let to contract in 1966. All totaled, nearly \$50 million of bond monies have been spent or obligated.

I assure you that the wise utilization of bond monies will continue. Probable expenditures this year will exceed \$60 million and 1968 will be the big year for the bond program as the major primary road projects will go under construction. If federal funds are made available, it is anticipated that total lettings for highway construction may reach \$200 million in 1968.

There remain many needed road improvements in all sections of North Carolina. The State Highway Commission, on the basis of an established system of priorities, is meeting these needs as rapidly as possible. North Carolina is fortunate to have bond funds and Appalachian Highway Funds to utilize in the face of the delay in apportionment of federal highway funds. We will continue to meet road needs as rapidly as wise planning and sound construction will allow.

HIGHWAY SAFETY

The 1965 General Assembly enacted one of the most comprehensive state highway safety programs in the nation. This program has been implemented and North Carolina has advanced the cause of traffic safety. Our efforts have been recognized throughout the country. Although the number of deaths on our highways continued to climb, the rate of increase slowed considerably.

Measured by North Carolina's experience over the last seven years, we would have recorded 1,733 deaths in 1966. Had North Carolina matched the national percentage increase over the previous year, we would have reached a total of 1,782. Instead, because of our efforts which helped to bring about the lower rate of increase actually registered, North Carolina's total was 1,709. In addition, for the first time in five years, there was in North Carolina an actual reduction in the number of fatalities per one hundred million miles traveled.

Because of our coordinated effort, North Carolina is making progress in the war against death and destruction on the highways. The inspection program is a success. More troopers patrol our highways. Our young drivers are better trained. Diligence in licensing has removed many potentially dangerous drivers from the highways. Our roads are being made safer. The Traffic Safety Research Center is in operation. Reflectorized license tags are in use. A new court system has been launched. The Traffic Safety Authority has coordinated the new and improved safety programs designed by the departments and agencies involved with traffic safety.

We are generally pleased with the initial success of our program. However, too many of our people are still dying on the highways and many others are maimed. Our task is becoming increasingly more difficult. The number of vehicles on our highways is now over 2.5 million. The number of drivers, particularly young drivers, is increasing. People are driving more. The Traffic Safety Authority and I have inventoried our safety programs and have assigned priorities to needed additions.

I recommend

—A strengthening of our inspection program.

—Additional highway patrolmen.

—A revision of licensing procedures to allow those mentally or physically incapable of safe operation of a vehicle to be more easily recognized.

—Laws arranging for special testing and licensing of motorcycle operators, safety equipment for the machine, and restrictions on number of passengers.

—The means for identification and removal of the cause for the alarming increase in one-car fatal accidents and pedestrian fatalities.

—Better preparation and equipment for driver education instructors.

ELECTION LAWS

There is a need for improvement in the Election Laws of North Carolina. This is evident from the report of the Election Laws Revision Commission. The Commission was authorized by the 1965 General Assembly. Three members were appointed by me, two were named by the Speaker of the House, and two were named by the Lieutenant Governor. Senator Oral Yates was chairman. I recommend your careful consideration of the report.

In addition, the State Board of Elections has made several recommendations pertaining to the election laws. The Board urges the adoption of the loose-leaf registration system by all counties, the requiring of each voter to sign the poll book and the certification of all civilian return absentee ballot envelopes. I also recommend your approval of the suggestions of the Board of Elections.

North Carolina is feeling the terrible impact of the war in Viet Nam, perhaps more than many of our sister states. Our sons and daughters have

answered again our nation's call in its time of need. We pay tribute to the fallen and express our continuing appreciation and support for those who defend the rights of free men everywhere. To help show our support, many North Carolina flags have been sent, upon request, to units in Viet Nam, and our Veterans' Commission is rendering every assistance possible to veterans and dependents.

The war in Viet Nam is demonstrating again that young North Carolinians are aware of their responsibilities as citizens and that they can meet those responsibilities in war as well as in peace. We are proud of all of them and have confidence in their abilities. I recommend that the people of North Carolina be given the opportunity of voting on a constitutional amendment which would permit the General Assembly to fix the age requirements for voting.

GOVERNMENTAL COOPERATION

I am personally encouraged at the initial results of our efforts to establish an equal partner relationship with the federal government. We have made state government more responsive to those federal programs that will benefit North Carolina and allow us a part in decision making. State agencies, particularly the State Planning Task Force, have cooperated with local governments in utilizing certain federal programs.

With the help of members of the North Carolina Congressional Delegation, we have sought to make our positions on various matters known to officials of the administration in Washington. I look forward to a continued close working relationship with members of the delegation on matters of importance to North Carolina.

This General Assembly, of course, is under court order to realign our congressional districts. I am sure you will act on this most important matter, as on all others, in the best interest of the people of North Carolina.

STATE EMPLOYEES

Much credit for the progress being made in North Carolina is due state employees. They are the ones who get the job done and done well. They deserve the appreciation of all the people of this State. Because of their service, I recommend General Fund and Highway Fund Appropriations to provide a five per cent salary increase for all full-time state employees subject to the Personnel Act. When added to the 10 per cent raises given state employees during this biennium, it will mean salary increases of 15 per cent across the board in four years. This does not include salary increases resulting from adjustments, position reclassifications and salary increments. My recommended increases will also cover certain employees in other specialized categories.

In view of the continued shortage of qualified physicians in our state mental hospitals, I recommend a 10 per cent salary increase for these positions to be distributed at the discretion of the Department of Mental Health.

There has been some confusion concerning what a state employee should, or should not, do in terms of participating in political activities. Of course,

state employees have all the rights and obligations of citizenship provided in the Constitution and the Laws of North Carolina and in the Constitution and the Laws of the United States. There is, however, a need for clarification.

For the protection and reassurance of all state employees, I recommend that you consider incorporating into the Personnel Act a clear statement of the individual right of the employee to participate in the political life of our state on his own time, while prohibiting any improper use of the time or influence of any employee or official to persuade or coerce political support or action.

CONCLUSION

State government in North Carolina is a complex operation. It requires coordination of numerous agencies and departments and cooperation with other governmental units. The State has under way many programs of service to the people and it is always seeking to improve and make itself more efficient. I have not attempted to summarize or even touch upon all of the important work of state government. But, ladies and gentlemen, I assure you all are necessary and important to the people of this State.

As I have attempted to emphasize by pointing to particular areas today, tremendous progress has been made in the last two years. North Carolina has taken a giant step forward toward greatness in all areas. We must accelerate our pace in the coming biennium. By working together, I am convinced that this Legislature and this administration can carry forward programs and services of lasting value to the people of North Carolina.

After all, what we seek is that which is good for the people. Our recommendations here and those which will be included in my Budget Message are based on thoughtful programs, all designed with this single purpose in mind: to provide the means for a better and more useful life for every man, woman and child in North Carolina. This is the goal of total development. With your help and continued Divine Guidance this better and more useful life can be put within the reach of all North Carolinians."

After the Governor's address, on motion of Senator Moore of Mecklenburg the Joint Assembly dissolves, the Senate repairs to its Chambers and the House resumes consideration of its business.

INTRODUCTION OF BILLS AND RESOLUTIONS

Bills and resolutions are introduced, read the first time, and disposed of as follows:

By Representative McMillan of Wake:

H. B. 9, a bill to be entitled an act to amend General Statutes 20-141 relating to power of local authorities to fix certain speed limits.

Referred to Committee on Highway Safety.

By Representative Collier:

H. B. 10, a bill to be entitled an act to amend Chapter 282, Private Laws of 1911, relating to the Charter of the Town of Lake Waccamaw in Columbus County.

Referred to Committee on Local Government.

By Representatives Britt of Johnston, Ramsey of Person, Horton, Beatty, Woodard, Raynor, and Strickland.

H. B. 11, a bill to be entitled an act to amend Article VI of the Constitution of North Carolina so as to lower the minimum voting age.

Referred to Committee on Constitutional Amendments.

By Representatives Clark of New Hanover and Andrews:

H. B. 12, a bill to be entitled an act to amend Section 90-113.1(9) of the General Statutes of North Carolina so as to include D-Lysergic acid diethylamide as a stimulant drug.

Referred to Committee on Health.

By Representatives High, Raynor, O'Hanlon, Bryan, Staton, and Quinn:

H. B. 13, a bill to be entitled an act to increase the income tax exemption for dependents from \$300 each to \$600 each.

Referred to Committee on Finance.

By Representatives Greenwood and Harkins:

H. B. 14, a bill to be entitled an act to amend Sections 105-306(26); 105-308; 105-309, and 106-310 of the General Statutes of North Carolina in order to authorize the Board of Tax Supervision of Buncombe County to prescribe regulations relating to the listing of property for taxation in Buncombe County, and to authorize the division or combining of townships for tax listing purposes.

Referred to Committee on Counties, Cities and Towns.

COMMITTEE APPOINTMENTS

The Joint Committee of the House and Senate comes into the Hall of the House acting as escort to Governor Moore.

Senator Morgan presents His Excellency, Governor Dan K. Moore to President Scott, Mr. Speaker Britt and the Joint Session of the General Assembly.

Governor Moore makes the following address to the Joint Session.

THE BUDGET MESSAGE OF
THE HONORABLE DAN MOORE
GOVERNOR OF NORTH CAROLINA

"Mr. President, Mr. Speaker and Members of the General Assembly of North Carolina:

Tonight I transmit to you, the Members of the General Assembly, the State budget recommendations for the 1967-69 biennium. I assure you that I have not and will not make any recommendations unless I know funds are available to carry them out.

You have on your desks the four budget documents. Volume I is the "A" Budget and contains requests and recommendations for operating funds to carry on established programs and activities at approximately the

level of service now maintained. Volume II is the "B" Budget and contains requests and recommendations for appropriations to finance improvements or expansion in established programs or to establish new programs. Volume III is the Capital Improvement Budget and contains requests and recommendations for specific building projects. Volume IV is the Digest of the State Budget, along with informative statistical data, graphs and charts.

These budget documents, along with the bills necessary to implement the budget, are the result of months of hard, unselfish and dedicated work by the Advisory Budget Commission. I have never known a more dedicated and industrious commission, and I commend them for a public service of the first magnitude.

I would like for the members of the Advisory Budget Commission to stand and be recognized by this joint session. The Chairman was the Honorable Thomas J. White of Lenoir County, Chairman of the 1965 Senate Appropriations Committee. The members were the Honorable W. Frank Forsyth of Cherokee County, Chairman of the 1965 Senate Finance Committee; the Honorable A. A. Zollicoffer, Jr., of Henderson, Chairman of the 1965 House Appropriations Committee; the Honorable C. E. Leatherman of Lincoln County, Chairman of the 1965 House Finance Committee; and my two appointees, the Honorable Joe C. Eagles, Jr., of Wilson, and the Honorable Edward M. O'Herron, Jr., of Charlotte.

I have enjoyed working closely with this commission in its deliberations, including some of its travels across North Carolina to State colleges, hospitals, prisons and other institutions. I am happy to announce tonight that, because of their splendid service, I am reappointing Mr. Eagles and Mr. O'Herron to serve again as my appointees to the Advisory Budget Commission.

I am pleased to recommend, with the unanimous approval of the Advisory Budget Commission, total appropriations of \$2,706,462,341 for 1967-69 out of total available funds of \$2,778,907,759 from all sources. Of this amount, \$1,493,838,044 will be from the General Fund and \$572,936,243 will be from the Highway Fund (including Federal Highway funds of \$132,370,000). The total recommended budget is \$418,861,736, or 18.3 per cent, greater than comparable expenditures for the current biennium.

The recommended budget for 1967-69 is in keeping with North Carolina's tradition of progress with fiscal integrity. It is a balanced budget. It is constructive, realistic and forward-looking. If adopted by this General Assembly, the budget will provide the largest biennial appropriations ever made in this State. I am pleased to report that these record expenditures can be accomplished without any new taxes or any additional bonded indebtedness.

All of this can be achieved because the State of North Carolina is in excellent fiscal condition. Revenues continue to exceed legislative estimates and there will be substantial reversions resulting from our efficient administration which kept expenditures below appropriations. The General Fund

will begin the next biennium with an estimated credit balance of \$163,158,791. It is a great asset to our State and must be spent wisely.

Following the adjournment of the 1965 General Assembly, one of my first actions was to call meetings of State department heads, community college presidents, and heads of our State-supported institutions of higher education. At these three meetings, we discussed ways and means of improving the administration of State Government. We stressed that the size, the scope and the diversity of State Government require that we utilize the best management and administrative skills available today. All agencies and institutions were urged to maintain careful budgeting, good planning, skilled employee relations, wise use of time and improved communications.

It was pointed out that dollars alone cannot define objectives and realistic goals. Dollars are primarily tools to be used wisely and productively. They may be described as input. Results are output — and this is what really counts. The follow-up by State agencies and the Department of Administration has paid off. In my opinion, these efforts have contributed to the substantial General Fund credit balance which now exists. In turn, this has helped make possible my recommended tax relief proposal to be outlined in this message.

THE PUBLIC SCHOOL SYSTEM

We recommend a total of \$784,335,354 (including retirement, social security and debt service) in General Fund appropriations for the public school system during the next biennium. This is an increase of \$130,494,390, or 19.96 per cent over comparable expenditures for 1965-67. This is the largest appropriation of General Fund tax dollars for the public schools ever presented to a General Assembly of North Carolina. It will meet the major needs of our public schools.

In my Legislative Message, I outlined my major program recommendations for the public school system. Here are the appropriations required to effect these recommendations:

1. Salary increases for public school teachers and teachers of vocational education — \$63,754,565.

2. Salary increases for principals, superintendents, assistant superintendents, supervisors, and other public school personnel — \$6,291,826.

3. Elimination of present \$5 text book fee required for high school students — \$3,283,495. Combined with the action of the 1965 General Assembly, this will provide North Carolina with completely free text books for all public school students.

4. More and better text books for elementary students — \$2,800,000.

5. Research funds for the Board of Education so that a thorough study can be made on the feasibility of public kindergartens — \$400,000.

6. Funds for educational research, development and experimentation, including the continuation of the Governor's School and the Comprehensive School Improvement Project — \$2,081,891.

7. Additional teacher scholarship loans for needy and worthy students desiring to become public school teachers — \$157,500.

8. Increase in rate of pay for substitute teachers from \$10 to \$15 per day — \$796,201.

9. Additional funds for vocational rehabilitation services — \$305,179.

10. The addition by 1968-69 of 130 special education teachers — \$1,048,402.

11. If the Board of Education approves the continuation of the Advance-ment School, the School and such funds provided should be under the direct control of the Board.

COMMUNITY COLLEGES

To provide continued support for our community colleges, we recommend a total of \$45,733,618 for the next biennium. This will provide an increase of \$16,752,563, or 57.8 per cent, over comparable expenditures for 1965-67. Of this total, \$4.9 million is recommended to provide for the conversion of Wayne Technical Institute to a community college, the establishment of four new branch units, and salary increases for teaching and non-instructional personnel. It will also provide \$200,000 for increased activity in new industry training programs.

HIGHER EDUCATION

For our institutions of higher education, we recommend a total appropriation of \$150,822,450 for the 1967-69 biennium. This represents an increase of \$42,701,366, or 39.5 per cent, above comparable expenditures for the current biennium. Of this amount, \$10.7 million is recommended for salary increases to academic and other personnel exempt from the Personnel Act.

CAPITAL IMPROVEMENTS

The State is fortunate to have such a large credit balance, representing tax collections over and above estimates, and the savings resulting from keeping expenditures below appropriations. It is our considered opinion that the General Assembly should follow the sound business practice of putting most of the credit balance into permanent assets. For this reason, we recommend to this General Assembly that \$110,904,653, or 68 per cent, of the estimated General Fund credit balance be used for capital improvements during the 1967-69 biennium. This represents a General Fund increase of \$51,283,075, or 86 per cent, over the total General Fund and legislative bond appropriations of the 1965 General Assembly.

This appropriation, plus available Federal funds and self-liquidating projects, would make available a total of \$179,719,877, the largest capital

improvement authorization ever made by the General Assembly of North Carolina. This is all the more remarkable in that this can be done without a bond issue.

As another indication of our continued interest and emphasis on higher education, we recommend that \$66,117,900, or 59.6 per cent of the General Fund appropriations for capital improvements be allocated to higher education. The remainder of the appropriations would be distributed to other education activities, health and hospitals, natural resources and recreation, etc.

This recommended program is of such proportions that it will tax the majority of these institutions and agencies to carry them out within the next two years. This is evidenced by the fact that the General Assembly authorized \$130.7 million for capital improvements, of which \$9.6 million, or 7.4 per cent, is not now under contract. The 1965 General Assembly appropriated and authorized expenditures for a grand total of \$154.6 million, of which \$113.5 million, or 74 per cent, is not now under contract.

During the past two years, we have worked hard to find ways and means of accelerating the planning and construction of authorized capital improvements. We have urged state institutions and agencies to plan capital improvement projects well in advance so that plans and specifications for the most urgent projects could be actually prepared prior to consideration by the General Assembly.

Under our present system for construction, capital building programs at our institutions frequently become the responsibility of administrators who are specialists in education, medicine, agriculture, and other fields who are unfamiliar with the complex administration of major construction programs. Many states utilize a State Building Authority, composed of persons knowledgeable in all phases of construction, to administer capital improvement programs authorized by the General Assembly. I believe this approach has merit and can save the state considerable time and money in the future.

As a means of testing this approach, I recommend to this General Assembly that it provide a State Building Authority, to be appointed by the Governor, which will oversee all capital improvement construction for central state government here in Raleigh. The performance of this authority could then be thoroughly tested, and if found valuable, could be broadened by a future General Assembly to handle all capital improvement construction for the State of North Carolina.

It would be well to note that the State of North Carolina still has remaining \$44,872,436 unallotted as of this date from the \$100 million bond issue approved in 1963 for State aid to public school construction.

SALARY INCREASES AND ADJUSTMENTS

Our recommended budget provides for salary increases to almost every class of permanent full-time employees in state government, from 5 per cent beginning 1967-68 for some, to over 17.5 per cent by the second year of the

biennium for others. These recommendations also include salary increases for Supreme Court Justices and Superior Court Judges, contingent upon the necessary statutory changes. I also recommend that an appropriate salary increase be provided for all members of the Council of State and the Attorney General.

The total amount recommended for salary increases from the General Fund is \$97,430,775, and from the Highway Fund, \$6,948,605.

In addition to appropriations for salary increases, we also recommend General Fund appropriations of \$1 million for the biennium to serve as a salary adjustment fund. If approved, these funds will be administered by me as Director of the Budget. Experience has shown that state government definitely needs such a fund. It is needed when salary reserve funds in operating budgets are insufficient to support approved salary adjustments resulting from range revisions, reclassifications, or unexpected changes in the labor market. As North Carolina's largest employer, state government must have sufficient flexibility to meet the many difficulties now arising in the recruiting and holding of qualified employees.

I am informed that the Trustees of our Teachers' and State Employees' Retirement System will recommend to the General Assembly some liberalization of benefits. I commend these recommendations to you. They, I understand, can be put into effect without any additional tax money due to an increase in a return on investments.

HEALTH AND HOSPITALS

For the 1967-69 biennium, we recommend General Fund appropriations for health and hospitals totalling \$121,195,612. This represents an increase of \$21,772,892, or 22 per cent, over comparable expenditures for the current biennium.

We recommend for our mental hospitals and training schools General Fund appropriations of \$84,856,902, an increase of \$15,779,878, or 22.8 per cent, over the comparable expenditures for 1965-67. Of this amount, we recommend an appropriation of \$4.5 million, an increase of \$2.3 million, for grants to community mental health centers. In view of the continued need for improved medical care and treatment, we recommend a 10 per cent salary increase for physicians in our State mental hospitals (to be distributed at the discretion of the Department of Mental Health), and also have included other mental hospital employees exempt from the Personnel Act in our salary increase recommendations. Without an adequate number of well-trained personnel, hospitalization is unduly prolonged, recovery rates are lower and costs rise.

The State Board of Health would receive \$13,341,643 during the biennium, an increase of \$3.7 million, or 38.2 per cent, over comparable expenditures for the current biennium. In addition to the State General Fund appropriation, the Board of Health is expected to receive Federal funds during the biennium in the amount of \$11.3 million, and other miscellaneous receipts which will provide a total biennial budget of \$25,342,396. Major

increases include an amount of \$1.8 million to implement a uniform fee schedule for medical fees and payments to hospitals, as well as \$800,000 beyond present support to be paid to the counties for strengthening local health programs.

Other recommended appropriations are: State sanatorium system, \$11.3 million; North Carolina Memorial Hospital, \$7.3 million; North Carolina Psychiatric Center, \$1.8 million; Orthopedic Hospital, \$1.4 million; Cerebral Palsy Hospital, \$571,065; Medical Care Commission, \$359,528; Asheville Orthopedic Hospital, \$180,000; Council on Mental Retardation, \$100,950; and North Carolina Cancer Institute, \$52,000.

PUBLIC WELFARE

To fund the necessary protective, preventive and rehabilitative services provided by the Department of Public Welfare, we recommend a total budget of \$260,322,046, made up of state appropriations of \$39,273,919, Federal matching of \$179,452,917 and local funds of \$41,595,210. The recommended state appropriation provides for an increase of \$8,149,675, or 26.2 per cent over comparable expenditures in 1965-67.

These increases will provide for continuation of recent trends in both caseloads and grants of the various public assistance programs, expansion in state personnel and related costs made necessary by increased workloads, and payments to physicians for services rendered public welfare recipients. These funds will increase maximum payments to recipients residing in nursing homes and homes for the aged, and increase payments to hospitals to 90 per cent of reimbursable costs.

We have not forgotten our blind and other handicapped children and adults in this recommended budget. The State Commission for the Blind would receive \$15,696,927 (including Federal and other funds), an increase in appropriations of \$904,191, or 30.3 per cent over comparable expenditures in 1965-67. We are recommending substantial budget increases for the Governor Morehead School, which provides instruction for our blind and visually handicapped youngsters, as well as for our two schools for the deaf in Morganton and Wilson. In addition, we recommend continuation of present levels of activity for the Veterans Commission, Confederate Women's Home and state grants-in-aid to child-caring institutions.

CORRECTIONAL AGENCIES

We recommend appropriations of \$44,015,502 for the Board of Juvenile Correction, the State Prison Department, the Probation Commission and the Board of Paroles. This represents an increase of \$6,075,868, or 16 per cent, over the comparable expenditures for 1965-67. In addition, our Capital Improvements Budget includes a recommendation for a \$4.2 million medium security prison and \$2,801,800 for new construction for the Board of Juvenile Correction.

REGULATORY STATE AGENCIES

We recommend total General Fund expenditures of \$9,736,955 for these agencies, which include the Utilities Commission, Industrial Commission, Insurance Department, Department of Labor, State Board of Alcoholic Control and several others. This is an increase of \$1,067,850, or 12.3 per cent, over the current biennium.

NATURAL RESOURCES AND RECREATION

We recommend appropriations of \$13,364,501 for these agencies — the Department of Conservation and Development, Department of Water Resources, Recreation Commission and similar agencies and programs supported by the General Fund. This is an increase of \$1,970,829, or 17.3 per cent, over comparable expenditures for the current biennium.

The recommended appropriation of \$10,847,551 for the Department of Conservation and Development will provide an urgently needed increase of \$1,573,936 over comparable current expenditures. This Department bears a heavy responsibility in carrying out many vital state programs in natural resources, industrial development, and other important activities. These funds will provide for the personnel and operating costs for four new travel welcome centers to be located at major gateways leading into North Carolina. Our Capital Improvements Budget recommends \$255,000 for the construction of these new facilities. They will benefit tremendously our entire travel industry which accounts for a major share of our State's annual income.

The recommended funds will also provide additional personnel and operating costs in forest fire control, continuation of special research projects in Commercial and Sports Fisheries, expand our State's advertising program, and provide additional funds for the printing of new industrial brochures in the Division of Commerce and Industry.

AGRICULTURE

We must never forget the tremendous importance of agriculture in the State's economy. Over 50 per cent of the total labor force in North Carolina is employed in businesses directly associated with agricultural commodities. The value of gross sales of farm products increased from \$770 million in 1954 to around \$1.5 billion in 1965. This shows clearly that agriculture is, in fact, a growth industry.

Within the past few years, agriculture has shaken off the burden of surplus stocks in government storage and the future demand situation is extremely bright. This strong demand picture is associated with the rapid growth in population at the world, national and state levels. We expect to supply our share of this expanding demand. To achieve this goal, however, we must become more competitive in the production, processing and marketing of some of our basic commodities.

Probably the biggest challenge facing North Carolina agriculture is the lag in mechanization relative to many other states. We must overcome this

barrier in order to increase the efficiency of agricultural production and the productivity of our agricultural resources.

We recommend General Fund appropriations of \$24,034,712 for the State Department of Agriculture, the Agricultural Experiment Station, the Cooperative Agricultural Extension Service, and the State Soil and Water Conservation Committee. This represents an increase of \$1,815,353, or 8.2 per cent, over the current biennium. In addition, I recommend that the Cooperative Agricultural Extension Service personnel be given the same salary increases provided for academic and other personnel of the Agricultural Experiment Stations.

This agriculture budget is designed to accelerate the rate of total agricultural development. We will give continued and increased support to our basic agricultural program involving research, education, regulation and service. I will continue to use the office of Governor to its maximum potential in moving our agriculture forward.

HIGHWAYS

The recommended 1967-69 appropriations of State, Federal aid and other funds to the State Highway Commission for current operations are \$518,690,897 which is \$32,163,531, or 6.6 per cent more than the estimated 1965-67 expenditures.

Highway construction and maintenance funds arising from state sources are applied first to matching Federal aid funds for Federal aid highway construction. Then they are used to provide maintenance of existing roads and highways, with the balance remaining to state construction. Highway maintenance costs are steadily increasing as roads age, new miles are paved, additional four-lane facilities are added, and labor and material costs rise. This leaves proportionately less money available for state construction.

While we are concerned with the \$12.8 million reduction in Federal funds available in 1967-69 for highway construction in North Carolina, we are accelerating construction expenditures in an effort to utilize fully available Federal aid.

MOTOR VEHICLES AND HIGHWAY SAFETY

The total recommended budget for the Department of Motor Vehicles is \$46,063,397, an increase of \$9,183,628, or 24.9 per cent, over the current biennium. The majority of this increase is from the Highway Fund, and will be used primarily for new personnel and related costs to provide for a substantial increase in Highway Patrol activities. It will also provide for the continued conversion of all motor vehicle registration records to electronic data processing.

The increased budget will provide for an additional 125 patrolmen and their related expenses. We considered carefully the request by the Department of Motor Vehicles that the State provide a new class of state employees to serve civil processes and thereby relieve the Patrol of these growing duties. However, it was our considered judgment that it would be better for

a uniformed patrolman to carry out these civil process duties, so we have increased the request for patrolmen by 25 so they may serve in lieu of civil process servers.

There is an urgent need to provide periodic physical examinations to members of the Patrol. Our preliminary tests show that these examinations are beneficial to the Patrol and the troopers. We have requested sufficient funds to begin this new policy on a regular basis.

I strongly recommend all of the budget requirements which will implement and strengthen our comprehensive State highway safety program. Also, I recommend that the new reflectorized license tags be continued for the next biennium. They will help prevent rear-end collisions at night. As you recall, the 1965 General Assembly approved these new safety devices on a one-year trial basis. Because of the advance planning and production required to manufacture these plates, I hope that this session of the General Assembly will give early and favorable consideration to this recommendation.

ECONOMIC DEVELOPMENT

As Americans, we occupy only 7 per cent of the world's land area and represent only 6 per cent of the world's population. However, we produce 33 per cent of the world's goods and services. We utilize 35 per cent of the world's electrical energy. We drive 56 per cent of the world's passenger cars and 40 per cent of its commercial vehicles. We use 49 per cent of the world's telephones, 47 per cent of its radios and 41 per cent of its television sets.

These facts dramatically emphasize the fantastic productivity of a free society and a free economy. We in North Carolina are doing our utmost to encourage economic development in every county and community in North Carolina. For example, in 1966 our State's industrial development reached new highs. Total investment was \$613.5 million, up more than 27 per cent over 1965. These projects will add more than 37,000 jobs and \$141 million to our payrolls. This progress would have been impossible without the excellent cooperation that does exist between labor and management. Both are to be commended for their contributions to the total development of North Carolina.

The State Department of Tax Research estimates that State and local taxes expected to result from new and expanded industrial plants in 1965-66 will amount to \$35 million each year. Of this amount, corporations will pay \$23.9 million in franchise, income and local property taxes. Individual employees will pay \$11.1 million in income, sales and local property taxes.

A recent study of employment changes during the 1960-65 period revealed that North Carolina's 10.2 per cent growth in civilian employment exceeded the national growth rate of 7.5 per cent. This rapid expansion of employment created approximately 181,500 new jobs in this five-year period, 61,000 more than if the State had experienced the same employment growth rate as did the entire United States.

However, in spite of our remarkable growth and progress, many serious problems do remain. Competition in industrial development, for example, has brought up the problem of what North Carolina should do about tax-exempt industrial aid bonds. I have always been against granting exemptions to bonds of this character because I did not believe that the building of an industrial plant was for a public purpose. I still feel the same way, and yet realize that we are faced with the fact that as of today such an exemption is recognized as valid by the Internal Revenue Service, which holds that the interest on such bonds is exempt from Federal income tax.

The Board of Conservation and Development, as well as others within and without government, contend that it is essential that North Carolina have some legislation sanctioning bonds of this type. They contend that our failure to be able to finance industry through industrial aid bonds has lost us many millions of dollars in new plants.

Tax-exempt industrial aid bonds are now legal in thirty of our states, including Virginia. The Governor of South Carolina has recently announced that he will recommend to the South Carolina Legislature, which is now sitting, the enactment of legislation legalizing such bonds.

Therefore, I am recommending that you consider legislation sanctioning the issuance of industrial aid bonds. I consider this purely a defensive measure with the hope that such bonds will be sparingly used. I recommend that if such a bill is passed, that the General Assembly create a State Authority which will have final approval as to the issuance of any bonds under this act. There should be safeguards to guarantee that only fiscally sound and well-established industries be approved, that there be provision for all property of the industrial facility to be subject to ad valorem taxes, and that the privilege of using such bonds be extended to our own established industries in connection with their expansions. Every bond issued under the terms of such legislation should declare on its face that it is not the obligation of the State of North Carolina or any of its subdivisions.

I sincerely hope that a gradual easing of credit will make such bonds less attractive. Meanwhile, let us hope that the Internal Revenue Service will ultimately reverse its stand and declare all such bonds taxable, or that the Congress will take such action, thus removing this device as a competitive advantage for any state.

Because of the tight money situation, the question has been raised by some of our responsible citizens that the interest rate ceiling of six per cent should be increased. The argument is that a great many sources of funds elect to lend their money in other states where they can secure a much higher return. It is also argued that many of our citizens are unable to get credit, particularly in the field of home buying and home building.

Let me say that I continue to be opposed to increasing the six per cent interest rate. It is my hope that the tight money situation will ease and that this crisis in credit will pass. There are some indications that the severity of the problem is lessening.

However, in view of the serious economic effects of tight money, it is my recommendation that this General Assembly study the entire credit situation, and especially the extent to which our laws governing interest charges may tend to hamper the orderly growth of our State. If it should be found that an adjustment should be made in certain instances, such as home financing, the General Assembly should adopt appropriate amendments to alleviate the areas in which our people are being adversely affected.

I would like to point out that in 1961 the General Assembly amended the law so as to allow corporate borrowers to pay up to 8 per cent for loans of \$30,000 or more and extending for a period of at least five years. I point this out to show that cases of hardship can be handled by amendment, leaving the general rate at 6 per cent.

URBAN AFFAIRS

The national trend toward urban growth is certainly reflected in North Carolina. Many of our municipal governments are faced with unprecedented demands for expanding services and increasing costs of present services. Financial assistance to local governments was one of the major topics of discussion in the 1965 General Assembly.

The Tax Study Commission, authorized by the 1965 General Assembly, together with the League of Municipalities and the Association of County Commissioners, sought a solution to this problem. They recommend that this General Assembly grant local governments the power to help themselves by the addition of a local option one per cent sales tax. This tax would be collected by the Department of Revenue along with, and on the same sales, as the present statewide three per cent sales tax. There would be no extra cost of collections since the State Department of Revenue would simply rebate the one per cent to the county.

They point out that the 'local option tax' is working well in other states. It provides substantial additional revenues for those localities where the need is severe. Their recommendation is that it be on a county-wide basis, with the proper division between the county and its municipalities. It would be in effect only in those counties which vote to come under it. Many major urban areas need additional permanent revenue rather than being forced to come to the Legislature every two years for temporary assistance. I support this recommendation of the Tax Study Commission, the League of Municipalities, and the Association of County Commissioners.

Actually, the property tax burden in many of our counties and municipalities has not yet reached levels which demand relief. So no statewide increase is necessary. For example, the average per capita property tax in North Carolina is \$50, as compared with the national average of \$118. Our per capita property tax is less than one-half for the average of the United States. The State of North Carolina relies very heavily for revenue on the individual and corporate income taxes; in fact, North Carolina rates among the highest in the nation on reliance on the corporate income tax structure itself for revenues.

While we recognize the needs of our urban areas, we must not forget that the State of North Carolina has for many years assumed the major burdens of taxation normally required by local governments in many other states. A partial listing of state aids, grants, services and expenditures to or for local governments by state government shows a grand total of over \$1 billion a year. These state obligations include public schools, community colleges, highways, public welfare, programs for the handicapped, health hospital construction, mental health, water resources, agriculture, courts, public safety and regulation and many others. Since 1949, the State of North Carolina has financed \$200 million in bonds for construction of public schools — a local responsibility.

PLANNING AND DEVELOPMENT

Planning for the future of North Carolina is a major responsibility of state government in which we all share major roles. Planning is a continuous process involving every region, every county and every community in our State. This administration has made every effort to stimulate, encourage and coordinate the sound planning required for orderly growth and development of our State. As a result of these efforts, there is tremendous activity at the regional, county and community levels across our State.

The State Planning Task Force, a new division of the Department of Administration, is primarily responsible for the coordination of state, local, federal and private programs for developing our human, natural and financial resources. The Task Force has pioneered in the field of statewide planning and development which becomes more essential each day.

North Carolina is now divided into three major regions for total development. In Western North Carolina, the Appalachian Regional Development Program has advanced rapidly. More than \$2.5 million have been allocated for new highways, schools, hospitals, airports, waste treatment facilities and permanent assets. To make most effective use of their resources, the counties have formed Local Development Districts as a means of coming directly to grips with their grass-roots problems.

In Eastern North Carolina, approval has been received to establish the Coastal Plains Regional Commission for North Carolina, South Carolina and Georgia. This will be patterned somewhat after the successful Appalachian Regional Commission programs.

The Governor's Advisory Committee of the Piedmont Crescent was established last year to coordinate governmental efforts to promote orderly growth in this industrial heartland of our State. More than 100 outstanding citizens agreed to serve on this Committee. Private funds were raised to supplement public funds to provide professional direction for the Piedmont Crescent's work. There is a professional planner working for the Committee. We look forward to the establishment of a Piedmont Crescent Regional Development Commission soon.

As you know, the 1965 General Assembly authorized the Department of Conservation and Development to open five regional offices to bring the services of the Commerce and Industry Division closer to all the people of

the state. These regional offices have completed data on sixty-five communities on which no usable data was previously available. Personal contact has been made with 426 separate North Carolina manufacturing firms as a means of providing specific services to our existing industries. Regional representatives have been involved in the announcement of twelve new plants resulting from expansions of our existing industries. Working at the grass-roots level, developmental workshops have been conducted in each of the five regions.

We must continue to press forward in the development of research, science and technology. The North Carolina Board of Science and Technology, a state agency, completed its new building in the Research Triangle Park this year. To date, it has made grants to support research programs in colleges, universities and research institutions totalling over \$1 million, which in turn attracted \$5.9 million in grants from other sources. This represented a return of \$5.95 for each dollar invested by the state.

The Triangle Universities Computation Center, in which the University of North Carolina at Chapel Hill, North Carolina State University at Raleigh and Duke University participate as major partners, is located in the Board of Science and Technology Building. This giant computer also serves other public and private colleges across North Carolina. Computer science provides powerful management tools which must be better understood and better utilized by all levels of government.

STATE MANPOWER DEVELOPMENT

The annual payroll for state government, including the public schools and the faculty of the Colleges and University, is well over half a billion dollars. State government is the largest employer in North Carolina. Ladies and Gentlemen, we are operating a big business, comparable to the largest corporate organizations operating in our State.

Our State employees are as capable and as industrious as any group of employees in North Carolina. However, the value which the state will receive for the expenditure of this enormous annual payroll is largely dependent upon the leadership of those top administrators who direct their work. Definite steps must be taken to insure that the state can attract and keep top administrators and managers of sufficient ability to direct the expenditure of such vast amounts of manpower and money.

I intend to appoint a 'blue ribbon' commission from top management in private business and industry to advise me on the adequacy of present salaries for major administrative positions in state government.

Improved manpower development is imperative if state government is to compete successfully in the personnel marketplace. The State Personnel Act of 1965 provides for the development of a system of personnel administration for employees of the state based on accepted management principles and applying the best methods available in government and industry. The Personnel Board has made much progress in strengthening and improving, with my approval, a positive and constructive program of personnel administration based on merit and performance.

I recommend to this General Assembly that sufficient funds be made available to the State Personnel Board to provide a management development and training program. This will enable the state to employ outstanding college graduates who have an interest in public administration, capacity for leadership, a willingness to accept responsibility, and an aptitude for administrative and organizational work. The program would involve on-the-job training, formal group training and additional studies. Such a program would permit the state to compete for the better college graduates on a more equal basis with the Federal Government and private industry.

At my request, the State Personnel Board has made an extensive study of fringe benefits which are provided as a part of the compensation to state employees. It found that the cost of total benefits offered state employees is substantially equal to that offered by private industry. However, there is a marked difference in the kinds of benefits offered. For example, the state traditionally has given its benefits in terms of non-work time off, rather than benefits in the form of health and life insurance, improved retirement or other factors. It costs the state \$1 million per day for each of the nine state holidays given to state employees each year. I have asked the State Personnel Board to continue its study to determine whether or not changes can be made which will make our non-work expenditures more beneficial to the employees and the state.

FEDERAL-STATE RELATIONS

We all recognize that Federal-State relationships have changed drastically in recent years, as the Federal Government has moved more and more into areas we formerly considered reserved to the states. Many people today feel that our Federal Government is becoming too powerful, and that it is usurping proper state authority. I understand this concern because we all realize the dangers involved in putting too much power in one central government. However, I do not believe that the important role of the states is diminishing, or that the effectiveness of state government is at a minimum.

There are encouraging signs of change. In the Appalachia program, for example, the Federal Government has accepted state governments as full partners in the planning, as well as the operation, of this complex, multi-state program. To serve the needs of all our people, the states must be equal partners with the Federal Government. Too frequently in the past, the states have been the junior — or silent — partner. Too often the Federal Government has been the overbearing and dominant partner, using control of money to dictate all policy. Too often state government was placed in the role of attempting to react to Federal decisions made without our knowledge or participation.

Full Federal-State partnership means equal participation and responsibility in the planning and development of each program. This means that our state governments and our local governments must also do their fair share in proving their competence in making equal partnership actually work. I am convinced that this can be done. I have every confidence in the ability of our great Federal system to survive and operate successfully in

the months and years ahead. North Carolina during the past two years has pioneered in seeking more productive Federal-State relationships. Let us continue.

TAX RELIEF

North Carolina's tax structure is basically sound and fair. It maintains excellent balance between the cost of the programs and services which our citizens require, and the ability of our taxpayers to finance such programs and services.

We collect approximately 75 per cent of all our revenues from three sources — income, sales and gasoline taxes. These three levies are each related directly to population growth and the actual taxpaying ability of our citizens. This gives us a stable tax structure with a broad and inherently sound base.

Because of the stable tax structure, the economic growth of our state, and the efficient, economical operation of state government, we are in excellent financial condition. By contrast, during 1965 thirty-two states had to raise taxes to meet their basic needs.

During my campaign for Governor, I said many times that if the General Fund continued to show a large surplus after the needs of the people had been met, then I would recommend some tax relief measures. I repeated this to the 1965 General Assembly. Later in the session, I pointed out that in view of the needs tax relief was not justified at that time. Now it is!

Our average taxpayer is heavily burdened and does deserve more consideration than he has received. We are all aware that the Federal Government is considering a new tax increase at this time. Social Security payments also continue to rise.

In view of our bright revenue outlook, I recommend to this General Assembly that our taxpayers be permitted to share in the state's increased economic growth by means of four tax relief measures.

First. I recommend that the tax burden for parents with dependent children be eased by raising the dependency exemption from \$300 to \$600 per year.

Under the present law an average family composed of four persons, with an annual income of \$4,000, is required to pay approximately \$30 in North Carolina income tax. Under my recommendation, this taxpayer will save \$18, a reduction of 60 per cent in his income tax bill. The average family of four with an income of \$5,000 per year will pay \$57 in income tax, whereas under the recommended plan it will pay \$39, or a reduction of 32 per cent.

A taxpayer earning \$10,000 a year, after itemizing at least 10 per cent deductions, would pay \$264 under the present plan and \$230 under the recommended plan, a reduction of \$34 or 13 per cent. The taxpayer in the \$15,000 income bracket would receive only an 8 per cent reduction. Thus, you can see that the largest percentage benefit would go to the small taxpayers. In many cases, the small taxpayer would be totally exempt from paying any state tax.

This increase in the dependency exemption would amount to a revenue loss of \$16,500,000 during the next biennium.

Second, I recommend tax relief to the parent who is financing the education of his children beyond the high school level. I propose that the state allow an additional \$600 exemption for each dependent enrolled for full-time study in any institution of higher education. This additional dependency allowance would cover students attending colleges and universities within and without the State of North Carolina, as well as those students attending community colleges, technical institutes, business colleges, barber and beauty schools. This additional dependency allowance would amount to a revenue loss of \$3,310,000 for the next biennium.

Third, I recommend we ease the tax burden of each person who has reached the age of 65 years by allowing an additional exemption of \$1,000. The life expectancy of our population continues to increase. This increase in the life span of the individual is accompanied by an increase in the cost of living. Since the generally accepted age for retirement is 65, and since the average retired person has income considerably below the levels during the years when he was employed, he needs some help. This tax relief will cost \$3,140,000 for the next biennium.

Fourth, I recommend that all service pay of enlisted men and \$500 per month service pay of commissioned officers be exempted from state income tax while they are serving in a combat zone. This is the same exemption now allowed by the Federal Government. In my opinion, this should be done to give appropriate recognition to the service being rendered by our men and women in Viet Nam and other combat zones. The exemption will cost \$350,000 during the next biennium.

The total revenue loss resulting from my four recommendations would amount to \$23,300,000 during the next biennium. This represents only 1.71 per cent of total estimated General Fund revenues, or 0.86 per cent of total estimated income from all funds and sources.

I recommend an effective date of January 1, 1968, on these income tax relief measures. This would permit the first tax relief to be reflected in pay checks received in January, 1968.

Two of the four tax relief measures are definitely related to my continuing interest in supporting education. The recommended increase in the dependency exemption, together with the proposed elimination of the \$5 high school book fee, will give parents more money to provide for the necessities of their school children.

We all realize that it is becoming more difficult for parents to finance the education of their children beyond the high school level. In view of the rising costs, we should offer some measure of relief, as well as encouragement, to the parents who would like to provide further education for their children.

Ladies and Gentlemen, let us remember that it is the taxpayer who pays all the bills for services in state, local and the federal governments. It has been the taxpayers' hard work, productivity and sacrifice that have

made it possible for us to recommend this record biennial budget to you. Let us provide this well-deserved tax relief to the parents of school children, the parents with children in college or post-high school education, our young men and women defending our nation in Viet Nam and elsewhere, and our older citizens who are facing retirement.

We can afford the revenue loss. We can give tax relief without reducing any vital services. As a matter of fact, we can give tax relief while appropriating major increases for public schools, community colleges, higher education, health and welfare and other services. I urge you to adopt these recommendations.

CONCLUSION

This has been only a brief review of a massive, forward-looking and constructive biennial budget. I have attempted to give you the highlights, as I understand them, and to point out major opportunities for progress and growth.

Along with all the citizens of North Carolina, I recognize that this budget, and my recommended program, are now in your good hands. I have every confidence in your ability and your judgment to carry out your responsibility during the coming months of this session. You will have my complete cooperation and assistance in your labors.

Let me pledge to you — as I did to the 1965 General Assembly — that my administration will make every effort to see that your final appropriations are spent in accordance with legislative intent. We shall continue our efforts to give the people of North Carolina honest, efficient and economical government. Good government *is* a habit in North Carolina — and we expect to continue that habit.

In my legislative message, I spoke of greatness. I have often said that, as a state, we were on the threshold of greatness. In a sense, that will always be true. The attainment of greatness has to do with *striving* for perfection. This of course, we will continue to do. In fact, we have already achieved a *degree* of greatness in many areas of the life of our people.

While we have recommended for your consideration a record expenditure of tax funds, we should not be judged purely by reference to dollars and cents. It is equally important that we be measured by our concern for the welfare, health and happiness of our people in relation to our available resources. We must contribute not only our material substance but a full portion of our mind, heart and spirit.

Our fiscal stability, our balanced budget, our efforts to conserve our resources, are not an end in themselves. They are, instead, a means to an end, and that end is a better life for our five million North Carolinians."

On motion of Senator Moore the Joint Assembly dissolves. The Senate repairs to its Chambers and the House resumes consideration of its business.

INTRODUCTION OF BILLS AND RESOLUTIONS

Bills and resolutions are introduced, read the first time, and disposed of as follows:

By Representatives Johnson of Wake, McMillan of Wake, Bunn and Twiggs:

H. B. 25, a bill to be entitled an act relating to temporary courthouse quarters for Wake County pending the construction of a new courthouse.

On motion of Representative Johnson of Wake the rules are suspended and the bill is placed on its immediate passage.

Passed first reading.

Rules suspended.

Passes its second and third readings and is ordered sent to the Senate.

By Representative Paschall:

H. R. 26, a joint resolution honoring the life and memory of Thomas H. Woodard, former member of the General Assembly.

On motion of Representative Paschall the rules are suspended and the bill is placed on its immediate passage.

Passed first reading.

Rules suspended.

Passes its second and third readings and is ordered sent to the Senate.

A JOINT RESOLUTION HONORING THE LIFE AND MEMORY OF THOMAS H. WOODARD, FORMER MEMBER OF THE GENERAL ASSEMBLY.

WHEREAS, Thomas H. Woodard passed away on the fourth day of September, 1966; and

WHEREAS, he was born in Wilson County, North Carolina, on December 3, 1901, and received his education in the Wilson Public Schools, Augusta Military Academy, Fort Defiance, Virginia, and graduated from the University of North Carolina with an AB degree in 1924; and

WHEREAS, he established the general insurance firm of Anderson, Deans, & Woodard in 1924 and served as Director of the North Carolina State Association of Insurance Agents and as its President in 1944-1945; and

WHEREAS, he served his community of Wilson County as Chairman of the County Board of Commissioners, Chairman of the County War Price and Rationing Board during World War II, President and Director of the Wilson Chamber of Commerce, President of the North Carolina Tuberculosis Association, Director of the Wilson Industrial Bank and The National Bank of Wilson, President of the Wilson Kiwanis Club, and Trustee and Exalted Ruler of the Wilson Elks Club; and

WHEREAS, he served as a member of the House of Representatives from Wilson County in the General Assembly from the 1957 Session to and including the Regular Session of 1963, as Chairman of the House Appropriations Committee in 1961, and as Chairman of the Advisory Budget Commission in 1962; and

WHEREAS, he and Matilda Barnes of Wilson were married in 1930 and to this union was born one daughter, now Mrs. John D. Gold, Jr., and both his widow and daughter now survive him; and

WHEREAS, the General Assembly desires to honor the memory of Thomas H. Woodard and express its sympathy to the surviving members of his family; NOW, THEREFORE,

Be it resolved by the House of Representatives, the Senate concurring:

Section 1. That the General Assembly recognizes and expresses its appreciation for the public service rendered by Thomas H. Woodard with full knowledge that for more than forty years he rendered able and valuable services to his native county, to his business associates and in a larger sense to the State of North Carolina, with a devotion to duty and upstanding character of the highest degree and with kindness and courtesy to all who had the pleasure of knowing him in his personal, business, social and political life.

Sec. 2. That this Resolution shall become a part of the public records of the 1967 Session of the General Assembly of North Carolina, and the Secretary of State shall cause a certified copy to be transmitted to Mrs. Thomas H. Woodard.

Sec. 3. This Resolution shall become effective upon its adoption.

By Representatives Roberson, Burrus, Forbes, Rountree, Horton and Everett:

H. R. 27, a joint resolution inviting the General Assembly to visit Beaufort and Pitt Counties, to inspect the phosphate development program in Beaufort County, and to hold a session of the General Assembly in Beaufort County on Wednesday, April 19, 1967.

Referred to Committee on Rules.

By Representative Harrill:

H. B. 28, a bill to be entitled an act to amend Chapter 564, Public-Local Laws of 1913, so as to abolish trial by jury in criminal cases in the Recorder's Court in Rutherford County.

Referred to Committee on Courts and Judicial Districts.

By Representative Roberson:

H. B. 29, a bill to be entitled an act to amend General Statutes 153-9 (47) relating to county plumbing inspectors, so as to make the same applicable to Beaufort County.

Referred to Committee on Counties, Cities and Towns.

By Representative Hutchins:

H. B. 30, a bill to be entitled an act to amend General Statutes 163-165, so as to prohibit loitering, electioneering, placing of posters and related activities within one hundred yards of a voting place.

Referred to Committee on Elections and Election Laws.

By Representative Clark of Union:

H. B. 31, a bill to be entitled an act to remove Union County from the special sentencing provisions of General Statutes 14-107, worthless checks.

Referred to Committee on Judiciary No. 2.

On motion of Representative Eagles, duly seconded, the House adjourns to meet tomorrow at 12:00 o'clock noon.

SIXTH DAY

HOUSE OF REPRESENTATIVES

Tuesday, February 14, 1967

The House meets pursuant to adjournment and is called to order by Mr. Speaker Britt.

Prayer is offered by the Reverend Alphonso Jordan, House Chaplain.

Representative Auman, for the Committee on the Journal, reports the Journal of Monday night has been examined, found correct, and without objection the same stands approved as written.

Mr. Speaker Britt extends the courtesies of the floor to the Honorable Dick Lupton, a former member of the House from Hyde County.

On motion of Representative Staton the courtesies of the floor are extended the Honorable Neill Ross, a former member of the House from Harnett County.

Mr. Speaker Britt extends the courtesies of the floor to the Honorable George Uzzell, a former member of the House from Rowan County.

A leave of absence is granted Representative Bumgardner for today and tomorrow.

On motion of Representative Edwards the rules are suspended and the courtesies of the floor are extended Lieutenant General Lewis B. Hershey, National Director of Selective Service; Colonel Mike Hendrix, Regional Field Officer, Selective Service, Atlanta, Georgia; and Mr. Wm. H. McCachren, State Director of Selective Service.

Mr. Speaker Britt recognizes Representative Edwards who escorts General Hershey to the dais where he makes a few remarks.

INTRODUCTION OF BILLS AND RESOLUTIONS

Bills and resolutions are introduced, read the first time, and disposed of as follows:

By Representatives Eagles, McMillan of Robeson, Leatherman, Short, and High:

H. B. 32, a bill to be entitled an act to amend General Statutes 105-141 and General Statutes 105-149 relating to combat pay and income tax exemptions.

Referred to Committee on Finance.

"A RESOLUTION TO ADOPT THE PERMANENT RULES OF THE HOUSE OF REPRESENTATIVES FOR THE 1967 GENERAL ASSEMBLY OF NORTH CAROLINA.

I. Order of Business	(1-5)
II. Conduct of Debate	(6-12)
III. Motions	(13-18)
IV. Previous Question	(19-20)
V. Voting	(21-26)
VI. Committees	(27-31)
VII. Handling of Bills	(32-45)
VIII. Legislative Officers and Employees	(46-50)
IX. Privileges of the Hall	(51-54)
X. General Rules	(55-58)

I. ORDER OF BUSINESS

Rule 1. *Convening Hour.* The House shall convene each legislative day at the hour fixed by the House on the preceding legislative day; in the event the House adjourns on the preceding legislative day without having fixed an hour for reconvening, the House shall reconvene on the next legislative day at twelve o'clock noon.

Rule 2. *Opening the Session.* At the convening hour on each legislative day the Speaker shall call the members to order, and shall have the session opened with prayer.

Rule 3. *Quorum.* (a) A quorum consists of a majority of the qualified members of the House.

(b) On the point of no quorum's being raised, the doors shall be closed and the Clerk shall call the roll of the House, after which the names of the absentees shall again be called over. Fifteen members, including the Speaker, are authorized to compel the attendance of absent members, and may order that absentees for whom no sufficient excuses are made shall be taken into custody as they appear, or wherever they may be found by special messenger appointed for that purpose.

Rule 4. *Approval of Journal.* The Committee on the Journal shall examine daily the Journal of the House before the hour of convening to

determine if the proceedings of the previous day have been correctly recorded.

Immediately following the opening prayer and upon appearance of a quorum, the Speaker shall call for the report of the Committee on the Journal as to whether or not the proceedings of the previous day have been correctly recorded; the Speaker shall then cause the Journal to be approved. Without objection, the Journal shall stand approved.

Rule 5. *Order of Business of the Day.* After the approval of the Journal of the preceding day, the House shall proceed to business in the following order:

- (1) The receiving of petitions, memorials and papers addressed to the General Assembly or to the House.
- (2) Reports of standing committees.
- (3) Reports of select committees.
- (4) Introduction of Resolutions.
- (5) Introduction of Bills.
- (6) The unfinished business of the preceding day.
- (7) Bills, resolutions, petitions, memorials, messages, and other papers on the Calendar in their exact numerical order, unless displaced by the order of the day; but messages, and motions to elect officers shall always be in order.
- (8) Reading of Notices and Announcements.

II. CONDUCT OF DEBATE

Rule 6. *Duties and Powers of the Speaker.*

(a) The Speaker shall have general direction of the Hall. He may name any member to perform the duties of the Chair, but substitution shall not extend beyond one day, except in case of sickness or by leave of the House.

(b) In the event the Speaker, by reason of physical or mental incapacity, is unable to perform the duties of the Chair, the Chairman of the Rules Committee shall be Speaker pro tempore, and shall perform all of the duties of the Speaker until such time as the Speaker may assume the Chair.

Rule 7. *Obtaining Floor.* (a) When any member desires recognition for any purpose, he shall rise from his seat and respectfully address the Speaker. No member shall proceed until recognized by the Speaker.

(b) When a member desires to interrupt a member having the floor, he shall first obtain recognition by the Speaker and permission of the member occupying the floor, and when so recognized and such permission is obtained, he may propound a question to the member occupying the floor; but he shall not propound a series of interrogatories or otherwise inter-

rupt the member having the floor; and the Speaker shall, without the point of order being raised, enforce this rule.

Rule 8. *Questions of Personal Privilege.* At any time, upon recognition by the Speaker, any member may rise to speak to a question of personal privilege, and upon objection to his proceeding, the Speaker shall determine if the question is one of privilege.

Rule 9. *Points of Order.* (a) The Speaker shall decide questions of order and may speak to points of order in preference to other members arising from their seats for that purpose. Any member may appeal from the ruling of the Chair on questions of order; on such appeal no member may speak more than once, unless by leave of the House. A two-thirds ($\frac{2}{3}$) vote of the members present shall be necessary to sustain any appeal from the ruling of the Chair.

(b) When the Speaker calls a member to order, the member shall take his seat. A member called to order may clear a matter of fact, or explain, but shall not proceed in debate so long as the decision stands. If the member appeals from the ruling of the Chair and the decision be in favor of the member called to order, he may proceed; if otherwise, he shall not; and if the case, in the judgment of the House require it, he shall be liable to censure by the House.

Rule 10. *Limitations on Debate.* No member shall speak more than twice on the main question, nor longer than thirty minutes for the first speech and fifteen minutes for the second speech, unless allowed to do so by the affirmative vote of a majority of the members present; nor shall he speak more than once upon an amendment or motion to commit or postpone, and then not longer than ten minutes. But the House may, by consent of a majority of the members present, suspend the operation of this rule during any debate on any particular question before the House, or the Committee on Rules may bring in a special rule that shall be applicable to the debate on any bill.

Rule 11. *Reading of Papers.* When there is a call for the reading of a paper which has been read in the House, and there is objection to such reading, the question shall be determined by a majority vote of the members of the House present.

Rule 12. *General Decorum.* (a) The Speaker shall preserve order and decorum.

(b) Decency of speech shall be observed and personal reflection carefully avoided.

(c) When the Speaker is putting any question, or addressing the House, no person shall speak, stand up, walk out of or across the House, nor when a member is speaking, entertain private discourse, stand up, or pass between the member and the Chair.

(d) Smoking or the consumption of food or beverages shall not be permitted on the floor of the House while the House is in session.

(e) Smoking or the consumption of food or beverages shall not be permitted in the galleries at any time.

III. MOTIONS

Rule 13. *Motions Generally.* (a) Every motion shall be reduced to writing, if the Speaker or any two members request it.

(b) When a motion is made, it shall be stated by the Speaker, or, if written, it shall be handed to the Chair and read aloud by the Speaker or Clerk before debate.

(c) After a motion has been stated by the Speaker or read by the Speaker or Clerk, it shall be in the possession of the House; but it may be withdrawn before a decision or amendment, except in case of a motion to reconsider, which motion, when made by a member shall be in possession of the House and shall not be withdrawn without leave of the House.

Rule 14. *Motions, Order of Precedence.* When there are motions before the House, the order of precedence is as follows:

Previous question

To adjourn

To lay on the table

To postpone indefinitely

To postpone to a day certain

To commit

To amend an amendment

To amend

To substitute

To pass the bill

No motion to lay on the table, to postpone indefinitely, to postpone to a day certain, to commit or to amend, being decided, shall be again allowed at the same stage of the bill or proposition.

Rule 15. *Motion to Adjourn.* (a) A motion to adjourn shall be seconded before the motion is put to the vote of the House.

(b) A motion to adjourn shall be decided without debate, and shall always be in order, except when the House is voting or some member is speaking; but a motion to adjourn shall not follow a motion to adjourn until debate or some other business of the House has intervened.

Rule 16. *Motion to Table.* (a) A motion to table shall be seconded before the motion is put to the vote of the House, and is always in order except when a motion to adjourn is before the House.

(b) A motion to table shall be decided without debate.

(c) A motion to table a bill shall constitute a motion to table the bill and all amendments thereto.

(d) A motion to table an amendment sent up from the floor shall not be construed as a motion to table the principal bill or any other amendment which has been offered thereto, and if such motion is carried, only the amendment shall lie upon the table.

(e) When a question has been tabled, the same shall not be acted upon again during the session except by two-thirds ($\frac{2}{3}$) vote.

Rule 17. *Motion to Postpone Indefinitely.* A motion to postpone indefinitely is always in order except when a motion to adjourn or to lay on the table is before the House; however, after one motion to postpone indefinitely has been decided another motion to postpone indefinitely shall not be allowed at the same stage of the bill or proposition. When a question has been postponed indefinitely, the same shall not be acted on again during the session, except upon a two-thirds ($\frac{2}{3}$) vote.

Rule 18. *Motion to Reconsider.* (a) When a motion has been once made and decided in the affirmative or negative, it is in order for any member of the majority to move for the reconsideration thereof, on the same or succeeding legislative day, unless it may have subsequently passed the Senate; *Provided*, that unless the vote by which the motion was originally decided was taken by a call of the ayes and noes, any member may move to reconsider.

(b) A motion to reconsider shall be determined by a majority vote, except a motion to reconsider a motion tabling a motion to reconsider, which shall require a two-thirds ($\frac{2}{3}$) vote.

IV. PREVIOUS QUESTION

Rule 19. *Previous Question.* The previous question may be called only by the members submitting the report on the bill or other matter under consideration, by the member introducing the bill or other matter under consideration, or by the member in charge of the measure, who shall be designated by the chairman of the committee reporting the same to the House at the time the bill or other matter under consideration is reported to the House or taken up for consideration.

Rule 20. *Form and Effect of Previous Question.* (a) The previous question shall be as follows: 'Shall the main question now be put?' When the call for the previous question has been decided in the affirmative by a majority vote of the House, the 'main question' is on the passage of the bill, resolution or other matter under consideration, including all pending amendments. If amendments are pending, the question shall be taken upon such amendments in inverse order.

(b) The call for the previous question shall preclude all motions, amendments and debate, except the motion to adjourn made prior to the determination of the previous question. Should the motion to adjourn be made prior to the determination of the previous question, the House shall vote

first on the motion to adjourn and then, if the motion to adjourn fails, the members shall vote on the call for the previous question.

(c) If the previous question is decided in the negative, the main question remains under debate.

V. VOTING

Rule 21. *Stating Questions.* (a) The Speaker shall rise to put a question.

(b) The question shall be put in this form, namely 'Those in favor (as the question may be) will say 'Aye',' and after the affirmation voice has been expressed, 'Those opposed will say 'No'.'

(c) Any member may call for a question to be divided into two or more propositions to be voted on separately, and the Speaker shall determine whether the question admits of such a division.

Rule 22. *Determining Questions.* Unless otherwise provided by the Constitution of North Carolina, all questions shall be determined by the members present and voting.

Rule 23. *Voting by Division.* Any member may call for a division of the members upon the question before the result of the vote has been announced. Upon a call for a division, the Speaker shall cause the number voting in the affirmative and in the negative to be determined. Upon a division and count of the House on any question, no member out of his seat shall be counted.

Rule 24. *Roll Call Vote.* (a) Before a question is put, any member may call for the ayes and noes. If the call is sustained by one-fifth (1/5) of the members present, the question shall be decided by the ayes and noes upon a roll call vote, taken alphabetically.

(b) Every member who is in the hall of the House when the question is put shall give his vote upon a call of the ayes and noes, unless the House for special reasons shall excuse him, and no application to be excused from voting or to explain a vote shall be entertained unless made before the call of the roll.

Rule 25. *Voting by Absentees.* (a) No member shall vote on any question when he was not present when the question was put by the Speaker, except by the consent of the House.

(b) If any member is necessarily absent on temporary business of the House when a vote is taken upon any question, upon entering the House he shall be permitted, on request, to vote, provided that the result shall not be affected thereby.

(c) When a member who is present is paired with an absent member, he shall, when his name is called on a roll call vote, announce the pair, which shall be recorded by the Principal Clerk.

Rule 26. *Voting by the Speaker.* In all elections the Speaker may vote. In all other instances he may exercise his right to vote, or he may reserve this right until there is a tie, but in no instance may he vote twice on the same question.

VI. COMMITTEES

Rule 27. *Committees Generally.* (a) All committees shall be appointed by the Speaker, unless otherwise specially ordered by the House.

(b) Any member may excuse himself from serving on any committee if he is a member of two standing committees.

(c) The Chairman and five other members of any committee shall constitute a quorum of that committee for the transaction of business.

(d) In any joint meeting of the Senate and House committees, the House Committee may in its discretion reserve the right to vote separately.

Rule 28. *Appointment of Standing Committees.*

(a) At the commencement of the session the Speaker shall appoint a standing committee on each of the following subjects, namely:

Agriculture.

Appropriations.

Banks and Banking.

Commercial Fisheries and Oyster Industry.

Commissions and Institutions for the Blind.

Wildlife Resources.

(b) The first member announced on each committee shall be chairman, and where the Speaker so desires he may designate a co-chairman and one or more vice-chairmen.

Rule 29. *Standing Committee Meetings.*

(a) Standing committees and sub-committees of standing committees shall be furnished with suitable meeting places.

(b) Subject to the provisions of subsections (c) and (d) of the Rule, standing committees and sub-committees thereof shall permit other members of the General Assembly, the press, and the general public to attend all sessions of said committees or sub-committees.

(c) The chairman or other presiding officer shall have general direction of the meeting place of the committee or sub-committee and, in case of any disturbance or disorderly conduct therein, or if the peace, good order, and proper conduct of the legislative business is hindered by any individual or individuals, the chairman or presiding officer shall have power to exclude from the session any individual or individuals so hindering the legislative business or, if necessary, to order the meeting place cleared of all persons not members of the committee or sub-committee.

(d) Upon the affirmative vote of a majority of the members of any standing committee or sub-committee, executive sessions may be held, but in no event shall final action be taken in executive sessions.

(e) Procedure in the committees shall be governed by the rules of the House, so far as the same may be applicable to such procedure.

Rule 30. *Committee Hearings.* The Chairmen of all committees shall notify, or cause to be notified, the first named introducer on such bills as are set for hearing before their respective committees as to the date, time and place of such hearing.

Rule 31. *Committee of the Whole House.*

(a) A Committee of the Whole House shall not be formed, except by suspension of the rules, if there be objection by any member.

(b) After passage of a motion to form a Committee of the Whole House, the Speaker shall appoint a chairman to preside in committee, and the Speaker shall leave the Chair.

(c) The rules of procedure in the House shall be observed in the Committee of the Whole House, so far as they may be applicable, except the rule limiting the time of speaking and the previous question.

(d) In the Committee of the Whole House a motion that the committee rise shall always be in order, except when a member is speaking, and shall be decided without debate.

(e) When a bill is submitted to the Committee of the Whole House, it shall be read and debated by sections, leaving the preamble to be last considered. The body of the bill shall not be defaced or interlined, but all amendments, noting the page and line, shall be duly entered by the Clerk on a separate paper as the same shall be agreed to by the committee, and so reported to the House. After report, the bill shall again be subject to be debated and amended by sections before a question on its passage be taken.

VII. HANDLING OF BILLS

Rule 32. *Reference to Committee.* Each bill not introduced on the report of a committee shall immediately upon its introduction be referred by the Speaker to such committee as he deems appropriate.

Rule 33. *Introduction of Bills and Resolutions.* (a) Every bill shall be introduced in regular order of business, except upon permission of the Speaker or on the report of a committee.

(b) Any member introducing a bill or resolution shall briefly endorse thereon the substance of the same.

Rule 34. *Papers Addressed to the House.* Petitions, memorials and other papers addressed to the House shall be presented by the Speaker; a brief statement of the contents thereof may be verbally made by the introducer before reference to a committee, but such papers shall not be debated or decided on the day of their first being read, unless the House shall direct otherwise.

Rule 35. *Introduction of Bills, Copies Required.* (a) Whenever any resolution or bill is introduced, a carbon copy thereof shall be attached thereto, and the Principal Clerk shall cause said carbon copy to be numbered as the original resolution or bill is numbered, and shall cause the same to be available at all times to the member introducing the same.

(b) Whenever a public bill is introduced, it shall be in such form and have such copies accompanying same as designated by the Speaker; and any bill submitted without the required number of copies shall be imme-

diately returned to the introducer. The Clerk shall stamp the copies with the number stamped upon the original bill.

Rule 36. *Duplicating of Bills.* The Principal Clerk shall cause such bills as are introduced to be duplicated in such numbers as may be specified by the Speaker. On the morning following the delivery of the copies, the Chief Clerk shall cause the Chief Page to have one copy put upon the desk of each member, one copy put in the office of each member, and shall retain the other copies in his office. A sufficient number of copies for the use of the committee to which the bill is referred shall be delivered to the chairman or clerk of that committee by the Chief Page. If the bill is passed by the House, the Chief Clerk shall deliver the remaining copies to the Principal Clerk of the Senate for the use of the Senate.

(b) The cost of duplicating shall be paid from the contingent fund of the House of Representatives.

Rule 37. *Report by Committee.* All bills and resolutions shall be reported from the committee to which referred, with such recommendations as the committee may desire to make.

(a) *Favorable Report.* When a committee reports a bill with the recommendation that it be passed, the bill shall be placed on the favorable calendar.

(b) *Report Without Prejudice.* When a committee reports a bill without prejudice, the bill shall be placed on the favorable calendar.

(c) *Unfavorable Report.* When a committee reports a bill with the recommendation that it be not passed, and no minority report accompanies it, the bill shall be placed on the unfavorable calendar.

(d) *Minority Report.* When a bill is reported by a committee with a recommendation that it be not passed, but it is accompanied by a minority report signed by at least one-fourth ($\frac{1}{4}$) of the members of the committee who were present and voting when the bill was considered in committee, the question before the House shall be: 'The adoption of the minority report.' If the minority report is adopted by majority vote, the bill shall be placed on the favorable calendar for consideration. If the minority report fails of adoption by a majority vote, the bill shall be placed on the unfavorable calendar.

Rule 38. *Removing Bill from Unfavorable Calendar.* A bill may be removed from the unfavorable calendar upon motion carried by a two-thirds ($\frac{2}{3}$) vote. A motion to remove a bill from the unfavorable calendar is not debatable; but the movant may, before making the motion, make a brief and concise statement, not more than five minutes in length, of the reasons for the motion.

Rule 39. *Reports on Appropriation and Revenue Bills.* All committees, other than the Committee on Appropriations, when favorably reporting any bill which carries an appropriation from the State, shall indicate same in the report, and said bill shall be referred to the Committee on Appropriations for a further report before being acted upon by the

House. All committees, other than the Committee on Finance, when favorably reporting any bill which in any way or manner raises revenue or levies a tax or authorizes the issue of bonds or notes, whether public, public-local, or private, shall indicate same in the report, and said bill shall be referred to the Committee on Finance for a further report before being acted upon by the House.

Rule 40. *Recall of Bill from Committee.* When a bill has been introduced and referred to a committee, if after ten days the committee has failed to report thereon, then the introducer of the bill or some member designated by him may, after three days' public notice given in the House, on motion supported by a vote of two-thirds ($\frac{2}{3}$) of the members present and voting, recall the same from the committee to the floor of the House for consideration and such action thereon as a majority of the members present may direct.

Rule 41. *Calendars.* The Clerk of the House shall keep a separate calendar of the public, local, and private bills, and shall number them in the order in which they are introduced, and all bills shall be disposed of in the order they stand upon the Calendar; but the Committee on Rules may at any time arrange the order of precedence in which bills may be considered.

Rule 42. *Readings of Bills.* (a) Every bill shall receive three readings in the House prior to its passage. The introduction of the bill shall constitute its first reading, and the Speaker shall give notice at each subsequent reading whether it be the second or third reading.

(b) No bill shall be read more than once on the same day without the concurrence of two-thirds ($\frac{2}{3}$) of the members present and voting.

Rule 43. *Effect of Defeated Bill.*

(a) Subject to the provisions of subsection (b) of this Rule, after a bill has been tabled or has failed to pass on any of its readings, the contents of such bill or the principal provisions of its subject matter shall not be embodied in any other measure. Upon the point of order being raised and sustained by the Chair, such measure shall be laid upon the table, and shall not be taken therefrom except by a two-thirds ($\frac{2}{3}$) vote.

(b) No local bill shall be held by the Chair to embody the provisions of or to be identical with any statewide measure which has been laid upon the table, or failed to pass any of its readings.

Rule 44. *Amendments and Riders.* No amendment or rider to a bill before the House shall be in order unless such rider or amendment is germane to the bill under consideration.

Rule 45. *Conference Committees.* (a) Whenever the House shall decline or refuse to concur in amendments put by the Senate to a bill originating in the House, or shall refuse to adopt a substitute adopted by the Senate for a bill originating in the House, a conference committee shall be appointed upon motion made, consisting of the number named in the motion; and the bill under consideration shall thereupon go to and be considered by the joint conferees on the part of the House and Senate.

(b) Only such matters as are in difference between the two houses shall be considered by the conferees, and the conference report shall deal only with such matters. The conference report shall not be amended.

(c) Except as herein set out, the rules of the House of Representatives of Congress shall govern the appointment, conduct, and reports of the conferees.

VIII. LEGISLATIVE OFFICERS AND EMPLOYEES

Rule 46. *Elected Officers.* The House shall elect a Principal Clerk, a Reading Clerk, and a Sergeant-at-Arms. The Principal Clerk shall continue in office until another is elected.

Rule 47. *Assistants to Principal Clerk and Sergeant-at-Arms.* The Principal Clerk and the Sergeant-at-Arms may appoint, with the approval of the Speaker, such assistants as may be necessary to the efficient discharge of the duties of their various offices. One or more of such assistants may be assigned by the Speaker from the Principal Clerk's office to the office of the Attorney General for the purpose of drafting bills.

Rule 48. *Speaker's Clerk, Chaplain, and Pages.* (a) The Speaker may appoint a Clerk to the Speaker, a Chaplain of the House, and he may also appoint fifteen pages to wait upon the sessions of the House; when the pressure of business may require, the Speaker may appoint five additional pages.

(b) When the House is not in session, the pages shall be under the supervision of the Principal Clerk.

Rule 49. *Committee Clerks.* (a) The Chairman of each of the following committees may, with the approval of the Speaker, appoint a clerk to his committee: Agriculture; Appropriations; Banks and Banking; Congressional Districts; Commercial Fisheries and Oyster Industry; Conservation and Development; Constitutional Amendments; Corporations; Counties, Cities and Towns; Courts and Judicial Districts; Education; Elections and Election Laws; Employment Security; Federal and Interstate Cooperation; Finance; Health; Higher Education; Highway Safety; Insurance; Judiciary No. 1; Judiciary No. 2; Local Government; Manufacturers and Labor; Mental Health; Penal Institutions; Propositions and Grievances; Public Utilities; Public Welfare; Roads; Rules; Salaries and Fees; State Government; State Personnel; Trustees of the University; Water Resources and Control and Wildlife Resources.

(b) Whenever the Speaker deems it advisable, he may assign a clerk to act for two or more committees.

(c) The leader of the minority party may, with the approval of the Speaker, be assigned a clerk.

(d) By and with the consent and approval of the Chairman of any of the above committees, the clerk of said committee may be assigned to special duty with other committees under the supervision of the Principal Clerk of the House.

Rule 50. *Compensation of Clerks.* No clerk, laborer, or other person employed or appointed under Rules 47, 48, and 49 hereof shall receive during such employment, appointment, or service any compensation from any department of the State Government, or from any other source, and there shall not be voted, paid or awarded any additional pay, bonus or gratuity to any of them, but they shall receive only the pay now provided by law for such duties and services.

IX. PRIVILEGES OF THE HALL

Rule 51. *Admittance to Floor.* No person except members, officers and employees of the General Assembly, Judges of the Supreme and Superior Courts, State officers and former members of the General Assembly who are not registered under the provisions of Article 9 of Chapter 120 of the General Statutes of North Carolina shall be allowed on the floor of the House during its session, unless permitted by the Speaker.

Rule 52. *Admittance of Press.* Reporters wishing to take down debates may be admitted by the Speaker, who shall assign such places to them on the floor or elsewhere, to effect this object, as shall not interfere with the convenience of the House.

Rule 53. *Extending Courtesies.* Courtesies of the floor, gallery or lobby shall not be extended by the Speaker on behalf of any member except upon the Speaker's motion and by written request.

Rule 54. *Order in Galleries and Lobby.* In case of any disturbance or disorderly conduct in the galleries or lobby, the Speaker or other presiding officer is empowered to order the same to be cleared.

X. GENERAL RULES

Rule 55. *Attendance of Members.* No member or officer of the House shall absent himself from the service of the House without leave, unless from sickness or disability.

Rule 56. *Documents to be Signed by the Speaker.* All acts, addresses, and resolutions and all warrants and subpoenas issued by order of the House shall be signed by the Speaker or Presiding Officer.

Rule 57. *Placement of Material on Members' Desks.* Persons other than members of the General Assembly, officers or staff thereof shall not place or cause to be placed any material on members' desks without obtaining approval of the Speaker or the Principal Clerk. Any printed material so placed shall bear the name of the originator.

Rule 58. *Rules, Recission and Alteration.*

(a) No standing rule or order shall be rescinded or altered without one day's notice given on the motion thereof, and to sustain such motion two-thirds ($\frac{2}{3}$) of the House shall be required.

(b) Except as otherwise provided herein, the House upon two-thirds ($\frac{2}{3}$) vote of the members present and voting may temporarily suspend any rule."

On motion of Representative Johnson of Duplin 5000 copies of the rules of the House of Representatives for the 1967 General Assembly of North Carolina are ordered printed.

"A JOINT RESOLUTION HONORING THE MEMORY OF J. SPENCER BELL.

WHEREAS, Jesse Spencer Bell was born in Charlotte on April 1, 1906, son of the prominent James A. and Jessie M. Spencer Bell, and died on March 19, 1967, after a lifetime of service to the United States, the State of North Carolina and Mecklenburg County; and

WHEREAS, in the death of Justice Bell, the State and the Nation have suffered the loss of a fine jurist, leading citizen and great man who served his State and his Nation well during a lifetime of public service; and

WHEREAS, as Chairman of a fifteen-lawyer Committee named to conduct a study of the North Carolina judiciary by the North Carolina Bar Association in 1955, the late J. Spencer Bell conducted a study of the North Carolina judicial system in a brilliant campaign to completely overhaul the North Carolina judicial system which campaign resulted in the court reform now in progress in this State; and

WHEREAS, Justice Bell ably served as Senator from Mecklenburg County in the General Assemblies of 1957, 1959 and 1961 and led the fight for reapportionment of State legislative votes, which campaign he won in 1961; and

WHEREAS, Justice Bell was appointed by the late President John F. Kennedy on September 14, 1961, as Justice for the Fourth Circuit where he built a brilliant record as an outstanding jurist and just prior to his death had been appointed by Chief Justice Earl Warren to head a study commission of Federal judges on fair trial and the free press, an appointment which showed the high regard in which he was held by his fellow Federal judges; and

WHEREAS, J. Spencer Bell was highly regarded as a brilliant attorney in Charlotte and was highly regarded for his public service including his action on the Charlotte Planning Commission in leading a fight for more progressive zoning laws and as Chairman of the Social Planning Council in Charlotte; and

WHEREAS, he served his country as a Major in artillery during World War II; and

WHEREAS, he was active as a leader of the Democratic Party in Mecklenburg County and in the State of North Carolina;

NOW, THEREFORE,

Be it resolved by the Senate, the House of Representatives concurring:

Section 1. That in the death of J. Spencer Bell, the United States, North Carolina and Mecklenburg County have lost an outstanding jurist, an able legislator and a fine citizen.

Sec. 2. That a copy of this Resolution be spread upon the minutes of both the Senate and the House of Representatives and that a copy of this Resolution shall be duly certified by the Secretary of State and by him transmitted to the family of J. Spencer Bell.

Sec. 3. This Resolution shall become effective upon its adoption."

SPECIAL MESSAGE FROM THE SENATE

SENATE CHAMBER
March 30, 1967

Mr. Speaker:

It is ordered that a message be sent your Honorable Body with the information that pursuant to H. R. 313, "A Joint Resolution inviting His Excellency, the Governor, to address a Joint Session of the Senate and House of Representatives at 12 o'clock noon, March 30, 1967," the Senate stands ready to repair to the Hall of the House, there to sit in Joint Session with your Honorable Body.

Respectfully,
/s/ S. RAY BYERLY
Principal Clerk

Pursuant to resolution heretofore adopted and exchange of messages, the Sergeant-at-Arms of the House announces the arrival of the Senate at the door of the House. Mr. Speaker Britt directs the admittance and seating of that Honorable Body. Mr. President Scott is seated to the right of Mr. Speaker Britt and is presented the presiding gavel.

The Joint Assembly is called to order by President Scott. The Sergeant-at-Arms of the House announces the approach of Governor Moore. The Governor enters escorted by Senators Henkel and Green, and Representatives Ragsdale, Merritt and Bryan.

President Scott recognizes Senator Moore who presents His Excellency Dan Moore, Governor of North Carolina, to the Joint Assembly.

Governor Moore delivers the following message:

SPECIAL MESSAGE ON HIGHER EDUCATION
TO THE GENERAL ASSEMBLY OF NORTH CAROLINA
BY THE HONORABLE DAN MOORE
GOVERNOR OF NORTH CAROLINA

"Mr. President, Mr. Speaker and Members of the General Assembly of North Carolina:

' . . . Education shall forever be encouraged.' This principle stated in the Constitution of North Carolina has been the major guide for governors and legislators of this State for many years. There have been many changes in the economic structure of the State and in the outlook of our people since the Constitution was adopted in 1868. However, the provision to encourage education has remained foremost in the minds of those chosen to lead North Carolina.

This principle has been the hallmark of my administration and of the Legislatures with which I have been privileged to serve. The 1965 General Assembly provided record programs for all levels of education. In my earlier messages this year, I recommended to you substantial additional increases in appropriation for the public schools, the community college system, and for higher education. I am hopeful that you will give favorable consideration to my recommendations.

North Carolina is a developing State. We are enjoying greater prosperity than ever before. Yet our per capita income is still low by national standards. I have proposed for your consideration a record of \$2.7 billion budget to advance state services to the people. About 70 cents of every General Fund tax dollar will go for education. It must all be wisely spent where it will benefit the people of the entire state.

Our needs in the area of higher education are many. Today there are 112,000 young men and women in public and private colleges and universities in North Carolina. By 1975 — just eight years away — we estimate that there will be 160,000 students enrolled in these institutions. At the present time, nearly 60 per cent of the students are in state-supported institutions. That figure is expected to increase to 66 per cent by 1975. The State, in order to fulfill its trust for the future, must provide adequately for these students.

The years immediately ahead will bring increasing responsibility to public and private institutions of higher learning. North Carolina is indebted for the excellent educational opportunities being offered our young people in private and church-related institutions. They are due much credit for the progress this state is enjoying. Their role and their responsibility will increase in the years ahead.

Our dual system of higher education has worked well and the state must see that this relationship remains sound and mutually beneficial. I have asked the Board of Higher Education to include in its studies the role of the private colleges in North Carolina and to recommend ways in which the state might help to assure the continuance of strong private institutions in the future.

The problem is not one of space alone. Education is of great importance to the young men and women of each new generation. They choose vocations carefully and they want and rightly expect the best possible training. To provide for them, North Carolina must have sound programs in the colleges and a strong university system. All institutions must have pride in the purpose they are serving and in what they are doing for our state.

THE BOARD OF HIGHER EDUCATION

In my Legislative Message last month, I said that higher education in North Carolina is at a crossroads. Today, I want to elaborate on that statement. I want to emphasize to you the importance of the planning being done by the North Carolina Board of Higher Education. While we follow our constitutional mandate to forever encourage education, we must do so by setting legitimate goals toward which the State of North Carolina can proceed in an orderly manner.

The North Carolina Board of Higher Education is the agency which the General Assembly created and to which you assigned the responsibility to plan for the orderly development of state-supported higher education (General Statutes 116-154). The board, in cooperation with all state-supported colleges and the University, is presently conducting a major study of higher education in this state. This is a massive task which cannot be completed until August of 1968. The study will provide North Carolina with its first long-range plan for higher education. The work of the board in this area is not only worthwhile, it is crucial for the future of higher education in North Carolina.

No major changes in our system of higher education should be made before this report is completed. The board has prepared, however, an interim report and recommendations concerning higher education in North Carolina for the information and consideration of this General Assembly. This report will be delivered to you today. My recommendations to you will be based, for the most part, on this interim report. I commend the report to you.

Before commenting on the interim recommendations on higher education, I want to recognize and compliment the members of the Board of Higher Education for their dedicated and objective service to the people of this

state. Their task is not an easy one. Each of the board members has worked long hours to plan for the strengthening and improvement of our system of state-supported higher education. They all deserve our appreciation.

The membership of the board includes six representatives of public institutions, selected on a rotation basis by the trustees of these institutions, a representative of the State Board of Education, and eight members-at-large.

The members of the board are: Mrs. George D. Wilson of Fayetteville, a Trustee of the University of North Carolina; E. J. Whitmire of Franklin, a Trustee of Western Carolina College; James L. Whitfield of Raleigh, Vice Chairman of the Board of Trustees of East Carolina College; Senator Lindsay C. Warren of Goldsboro, member-at-large; John S. Stewart of Durham, a Trustee of the Agricultural and Technical College; John A. Pritchett of Windsor, Vice-Chairman of the State Board of Education; Dr. Hubert M. Poteat, Jr. of Smithfield, member-at-large; J. Paul Lucas of Charlotte, member-at-large; J. P. Huskins of Statesville, member-at-large; W. C. Harris, Jr. of Raleigh, Trustee of the University of North Carolina; S. E. Duncan of Salisbury, member-at-large; Dr. Martin L. Brooks of Pembroke, a Trustee of Pembroke State College; Mrs. Harry P. Horton of Pittsboro, member-at-large and Secretary of the Board; Representative Gordon H. Greenwood of Black Mountain, member-at-large and Vice-Chairman of the Board; and Watts Hill, Jr. of Durham, member-at-large and Chairman of the Board.

A major portion of the work of the board members and the staff in the last year has related to a long needed plan for higher education. All state-supported colleges and the University are now working on their own long-range plans for development. The Board of Higher Education has under way approximately 50 studies relating to all state-supported colleges and the Consolidated University. These studies are in the major categories of administrative structure, organization and control, educational opportunity and needs, financing higher education, faculty, students and enrollment, and facilities.

These studies and the work being done at the institutions of higher learning will provide the necessary data to allow the State of North Carolina to plan an adequate system of higher education for the next decade. The plan, when it is completed next year, will be such that it can be readily updated every two years, as changing circumstances might require.

INTERIM REPORT AND RECOMMENDATIONS

The board's interim report is an indication of the scope and the value of its work. The interim recommendations, made by the board for your consideration, fall into four major categories: (1) tuition; (2) budget preparation and administration; (3) admissions and enrollment; and (4) the traditionally Negro colleges. The interim recommendations are designed to strengthen and better utilize existing programs. None would constitute a major change in our present system of higher education.

The interim report gives considerable attention to the tuition charged in-state and out-of-state students at the various state-supported institutions. It points out that it is neither desirable nor necessary for North Carolina to subsidize out-of-state students to the present extent. It further concludes that in-state tuition at all institutions should be kept to the lowest possible minimum.

The board makes these recommendations in this area: (1) that trustee boards of state-supported institutions raise annual tuition for *out-of-state undergraduate students* to \$500 at the four-year colleges; \$600 at the five-year colleges; and \$700 at the University beginning with the 1968-69 academic year; and (2) that trustee boards equalize annual tuition at all institutions for *in-state undergraduate students* at \$150 beginning with the 1968-69 academic year. I concur in general with these recommendations.

The increase in the tuition for undergraduate out-of-state students would add about \$1.23 million to the income of the institutions. The equalizing of the tuition charges for in-state students would cost an estimated \$720,000 annually. The result would be a net decrease in costs to the state of approximately \$510,000. Such action would reduce the tuition for 56 per cent of in-state students in public institutions while raising it for only four per cent.

The preparation and administration of the budget as it relates to higher education is reviewed in the board's interim report. It points to the questions raised in this area by the Commission on the Study of the Board of Trustees of the University of North Carolina and adds that similar questions have been raised about the budget by officials of senior colleges.

The board recommends that the Governor, as director of the budget, order a re-examination of the process of budget preparation and administration as it relates to the institutions of higher education. It asks that representatives of the board and of the institutions be invited to participate in the study. I have today requested the Director of the Department of Administration to conduct such a re-examination.

The board has given attention to the admissions standards at state-supported institutions. It notes in the report that unusually low admissions standards prevail in some institutions, particularly some of those traditionally attended by Negro students. The board says that such low admissions standards may have been justified prior to the establishment of the community college system with its 'open admissions' policy.

The report points out that the advent of the community college system 'makes it possible' for any student to receive as little or as much post-high school education as his ability and motivation qualify him to complete. Any student in North Carolina today can continue his education beyond the high school, if he so desires. Therefore, the board concludes that there is no longer justification for unrealistically low admissions standards at any of the senior institutions of higher learning.

The board recommends that this General Assembly authorize it to approve or to reject minimum admissions standards set by the state-

supported institutions. I concur in this recommendation and agree with the board that this authority is essential if higher education in North Carolina is to be effectively co-ordinated and if standards are to be raised.

In its interim report, the Board of Higher Education recognizes the special problems and needs of North Carolina's predominantly Negro colleges. The report points out that state-supported institutions in this category, as others throughout the South, are facing 'an extraordinarily difficult period of transition.' While striving to raise their general academic standards, these institutions are faced with providing for the immediate needs of students who are often inadequately prepared.

The report states that admissions standards must be raised if these institutions are to improve the quality of their educational offerings. Three conditions, according to the study, are necessary. First, there must be a gradual raising of admissions standards. Second, students obviously unqualified to complete college level work must be directed to the college preparatory programs as well as the vocational and technical programs in the community college system. And, third, the predominantly Negro colleges need special financial assistance to make an orderly transition.

The board recommends in this area: (1) that admissions standards at state-supported predominantly Negro institutions be raised to the equal of their white counterparts by 1972; (2) that this transition be carefully coordinated with the expansion of the community college system; and (3) that special financial assistance be provided by this and succeeding General Assemblies for necessary strengthening of faculty, curricula and facilities at the predominantly Negro colleges. I concur in these general recommendations.

The Board of Higher Education will submit soon a detailed report concerning the implementation of such a program. At that time, the board will request an appropriation of \$2.9 million to provide immediate special financial assistance for our predominantly Negro colleges. These funds, if available, would be wisely spent and would benefit the educational programs of these institutions and the entire state. This request, however, as other supplemental requests, must be considered in light of available revenue.

NORTH CAROLINA COLLEGE LAW SCHOOL

The budget I presented in my last visit with you provided for the discontinuance of the Law School at North Carolina College at the end of the first year of the coming biennium. I, of course, concurred in that decision. In light of its long-range planning program now under way, however, I asked the Board of Higher Education to review that decision and to report to me its conclusions.

The board replied that such action would constitute a major change in the state's system of higher education. It further informed me that it presently has under way a study of legal education in North Carolina which will be completed next year. In view of these facts, I ask you now to

restore the necessary funds (\$85,000) to allow the Law School at North Carolina College to continue operation during the second year of the coming biennium.

UNC TRUSTEE STUDY COMMISSION

The 1965 General Assembly authorized a Commission to study the Board of Trustees of the University of North Carolina with respect to its number, selection, terms of office and its interrelationship with the General Assembly and other agencies of the state. A commission of distinguished North Carolinians, chaired by former Governor Luther Hodges, was formed. The Commission held hearings and did considerable research.

The result was a most comprehensive and meritorious report. Its recommendations are far-reaching, and, if adopted, they would constitute a major change in the state's system of higher education. Therefore, I reluctantly request that no action be taken in this area until the Board of Higher Education has completed its long-range planning program. I recommend that the report be referred without prejudice to the 1969 General Assembly.

As you know, this Session of the General Assembly has the responsibility to elect 25 members of the University of North Carolina Board of Trustees. I know that you will select the highest caliber of citizens to serve on this board.

EAST CAROLINA COLLEGE

In view of the importance and of the need for a long-range plan for higher education, I called the presidents and the chairmen of the boards of trustees of our institutions of higher learning, members of the Board of Higher Education, other state officials and members of the Advisory Budget Commission to the Mansion on May 12, 1966. At that meeting, we discussed ways of improving state-supported higher education, and I asked specifically for the active participation and cooperation of each institution in the long-range planning of the board. This was forthcoming.

I said at that meeting: 'Major changes in our state system should be considered only in the broader context of a state-wide plan for higher education. Lacking such a plan in the past, we now should take the relatively short time required to permit the completion of this ten-year plan. I believe that the best interests of the state and higher education would be served by foregoing any request for a major change in the system of higher education during the coming biennium.'

All of the state-supported institutions honored my request to participate in the long-range planning. The officials of East Carolina College, however, decided to move ahead with a project to make that institution an independent university. The trustees requested the Board of Higher Education 'to study the desirability of elevating East Carolina College to independent university status.'

This study was undertaken by the board. A committee of consultants was secured by the board to survey current programs and resources of East Carolina College. They visited East Carolina in December. The consultants concluded that the institution is 'not now prepared' to become a university. They recommended a strengthening of its programs at the master's degree level and were most complimentary of the effective manner in which it is discharging its undergraduate teaching mission.

Indeed, we are all proud of East Carolina College and the way in which it has carried out its statutory role in our system of higher education.

The consultants further concluded that 'what is needed in the present situation is a good deal more planning for the development not only of East Carolina College, but of the entire system of higher education in the State of North Carolina than has been possible in the past.' The committee of consultants took note of the fact that the Board of Higher Education has undertaken 'the studies necessary for such planning of the entire higher educational enterprise in the state.'

The members of the Board of Higher Education, in view of the long-range study under way, its appraisal of the need for another university and financial implications, the consultants' report, and the existing laws relative to the one-university concept, unanimously recommended that no fundamental change be made in the structure of the system of higher education at this time. The report of the Board was delivered to members of the General Assembly two weeks ago. I concur in the report and commend it in its entirety to you for your careful consideration.

The board's study was made in response to the direct request of the East Carolina College Board of Trustees. I am informed that the Board of Trustees of that institution has never, as a board, endorsed the legislation introduced in this General Assembly proposing independent university status.

THE HIGHER EDUCATION SYSTEM

Ladies and gentlemen of the General Assembly, the question here involves much more than a single institution. It concerns the entire state-supported system of higher education. Please make no mistake about the issues. In my judgement, if an independent university is created by this General Assembly, the structure of our system of higher education would be destroyed. The valuable one-university concept would be wrecked. The Board of Higher Education would be rendered ineffective and useless. Educational chaos and institutional politics would replace planned progress and a concerted effort to meet the needs of our people.

What are North Carolina's needs for additional educational programs in medicine, engineering, law, dentistry, and other major professions? The Board of Higher Education is now seeking reliable answers to such questions. In my opinion, it is simply sound business to have these answers before any basic changes are made in our system of higher education.

The creation of an independent university is a far different matter from changing the name of an institution as was done by the 1965 General

Assembly. That Legislature changed the name of one campus but it reaffirmed the function and role of the Consolidated University of North Carolina. The establishment of an independent university would be a change in principle, a change in course, and a change which can lead only to duplication and confusion. It would affect not just one institution, but all state-supported institutions. It would affect not just a region, but the entire state.

I urge you to give careful consideration to the work which has been and is being done by the Board of Higher Education. I cannot overemphasize the importance of the planning and coordinating work it is now doing. The 1955 General Assembly displayed remarkable insight in recognizing the growing demands in the area of higher education and in providing an agency such as the board to plan on a state-wide basis. Later General Assemblies, particularly the 1965 Legislature, have improved its effectiveness.

North Carolina has a fine system of higher education now, but is far from being adequate to meet the needs of our people in the years ahead. The Board of Higher Education is today working with our institutions to plan for the needs of our young people in the future. This board is helping to provide the state with a 'sound, vigorous, progressive, and coordinated system of higher education.' To alter the basic structure of the system would destroy what the board is accomplishing and would encourage every institution to bypass the board's present coordinating responsibility.

THE ONE-UNIVERSITY CONCEPT

I also urge you to continue to support the one-university concept which has served and which is today serving North Carolina so well. O. Max Gardner was a Governor of many accomplishments. His greatest, perhaps, was his wisdom and foresight in urging the 1931 General Assembly to consolidate three great institutions into one. It provided the means to economize and to strengthen academic programs by reducing unnecessary duplication.

The wisdom of this action is evident. The institutions in the consolidation have been encouraged rather than hampered in their development. There is economy in their operation and there is no unnecessary duplication. The entire state is served by and has benefited from the consolidation. The people of North Carolina recognize these facts, as the academic world recognizes the great institutions that form the University.

In looking back over his life years later, Governor Gardner remarked, 'I am convinced that if I had rendered any public service worthy to be remembered, it was in connection with the enactment of the statute creating the greater University of North Carolina. Enough time has elapsed since the enactment of that legislation to convince me that the Consolidated University of North Carolina, through wise administration and sound leadership, has met the approval of our people and has resulted in great benefit to the institutions involved and to the cause of higher learning, and also to the service of humanity through future generations.'

The most recent objective study of the benefits of consolidation was made by the Governor's Commission on Education Beyond the High School. The Commission, in its report filed in 1962, made many outstanding recommendations concerning the future of higher education. For instance, its recommendations resulted in the strengthening of college programs, the community college system, the University and the Board of Higher Education. I commend this report to you for study.

The Commission on Education Beyond the High School was composed of 26 dedicated and distinguished North Carolinians.

It included these eight members of the North Carolina General Assembly; Representative Clifton Blue of Moore, Senator Lunsford Crew of Halifax, Representative Addison Hewlett, Jr. of New Hanover, Senator John R. Jordan, Jr. of Wake, Senator James G. Stikeleather, Jr. of Buncombe, Senator Thomas J. White of Lenoir, Representative Shelton Wicker of Lee, and Representative Thomas H. Woodard of Wilson.

Three former members of the General Assembly served. They were Irving E. Carlyle of Winston-Salem who served as chairman; L. P. McLendon of Greensboro; and Thomas J. Pearsall of Rocky Mount. Mr. McLendon served on the commission as Chairman of the Board of Higher Education. The Chairman of the State Board of Education, W. D. Herring of Rose Hill, was a member of the commission.

Six college presidents were also included in the commission's membership: They were President Bonnie E. Cone of Charlotte College, President Lewis C. Dowdy of A & T College, President Alfonso Elder of North Carolina College, President William C. Friday of the University of North Carolina, President Deryl Hart of Duke University, and President Leo W. Jenkins of East Carolina College.

This commission, ladies and gentlemen, in its study of higher education in North Carolina, very carefully reviewed the University and the merits of consolidation. It made these two observations less than five years ago about the Consolidated University and the future:

'First, as a simple matter of economics, the state now and for the foreseeable future can afford only one university, and that one should be the best that intelligent leadership can build with the means available. Second, new campuses of the Consolidated University should be established only where there is a clear need for the types of programs (particularly in graduate and professional fields) that only a university should offer.'

The laws of the State of North Carolina today provide, in General Statutes 116-2, that the University of North Carolina shall be the only university primarily dependent for its support on the state. The law further provides, in General Statutes 116-2.1, the procedures and standards for the establishment of an additional campus or campuses of the University of North Carolina. Charlotte College became a campus of the University by following the provisions of the law. Any of our senior colleges that elect to follow this procedure will receive careful consideration. This route is open to all.

I want to emphasize to each of you that from the standpoint of quality and distinguished education, and because of the many needs to be met in the field of higher education, North Carolina cannot afford more than one public university. The one-university concept has and is today demonstrating its worth. It is continuing to benefit the people of the entire state. Any departure from this sound principle of successful higher education at this time would be disastrous and tragic for North Carolina.

CONCLUSION

... 'Education shall forever be encouraged.' This constitutional instruction has never been of greater significance. It is a mandate to us who today set the course for North Carolina's future. We seek the total development of our abundant resources as a means of providing a full and useful life for all our citizens. These things cannot be attained unless the best educational opportunities are available and are utilized by our young people.

North Carolina can reach its full potential in the years ahead only if we achieve a standard of excellence in our schools and colleges. We are moving today in that direction. Indeed, this General Assembly has available the resources to greatly improve public education at all levels. But, in many respects, North Carolina has a long way to go. We are still catching up.

As I said to you in my Legislative Message, 'Higher education in North Carolina is today at a cross-roads. In one direction is the continued orderly development of our institutions, full utilization of our higher education resources, and attainment of defined goals by set standards. The other direction goes off into the unknown, leading perhaps to unwise duplication, unnecessary rivalry for limited appropriations, and a general weakening of our state-supported higher education system.'

Yes, the months ahead are crucial for education, particularly higher education. We have many needs, and our present resources must continue to be utilized on the basis of well thought out plans. This is the reason the Board of Higher Education is at work now on long-range planning. This, too, is why I have asked you to authorize a 'blue ribbon' commission to study all aspects of the public school system.

If we are to continue to encourage educational development, then we must join together in building upon the solid foundations of higher education already established. We must move toward realistic goals for the system. However, we should be cautious and know well where we are going. North Carolina can afford neither the money nor the time to proceed in a haphazard and uncoordinated manner.

We must know how adequate state-supported higher educational opportunities are. Then and only then, can our resources be used where they will do the most good for our young people. North Carolina cannot afford now—or at any time—to follow whims or to seek unnecessary goals where education is concerned. We must first know our destination. Then we must move steadfastly in one direction—the right direction.

Now, my friends, the final decisions rest with you. You know of our need for a long-range plan for higher education. You know of our resources and of the issues confronting us. I sincerely believe that the course I have suggested to you is the best for our institutions and for our state. I am confident that by your wisdom and your unselfish dedication to our state, you will see that North Carolina follows the proper course. The future of higher education in North Carolina is in your capable hands."

After the Governor's address, on motion of Senator Moore, the Joint Assembly dissolves, the Senate repairs to its Chambers, and the House resumes consideration of its business.

HOUSE RESOLUTION

The following House Resolution is presented and upon motion adopted.

By Representatives Taylor of Carteret and Bowles:

"A HOUSE RESOLUTION TO ENCOURAGE TRANQUILITY IN THE RANKS OF THE FOURTH ESTATE ASSIGNED TO COVER THE ACTIVITIES OF THE NORTH CAROLINA GENERAL ASSEMBLY.

WHEREAS, the members of the Fourth Estate covering the activities of the General Assembly of North Carolina perform a very worthwhile, if some times inaccurate, public function; and

WHEREAS, the mental and emotional well being of the members of the Fourth Estate is of great public interest as it directly affects their performance; and

WHEREAS, many factors affect emotional tranquility and harmony between physical and mental functions, particularly in the male homo sapien; and

WHEREAS, it is of great moment to the General Assembly when anything takes place which will promote such emotional tranquility in members of the Fourth Estate because the true public service being rendered by the members of the General Assembly is resultingly more accurately reported to the people; and

WHEREAS, such a happening is near at hand; NOW, THEREFORE, Be it resolved by the House of Representatives:

Section 1. That the North Carolina General Assembly does commend for outstanding public service to the people of North Carolina, and in particular the members of the General Assembly, in promoting the emotional tranquility of one member of the Fourth Estate and the harmonious interrelation between that member's mental and physical functions, Miss Nancy Ann Wilkins, who, on Saturday next, will wed Mr. Michael Putzel of the Associated Press assigned to cover the General Assembly of North Carolina; and be it further resolved that the North Carolina General Assembly does wish her every success in this undertaking and a long tenure in office.

Sec. 2. This Resolution shall be effective upon its adoption."

"A JOINT RESOLUTION COMMEMORATING THE HALIFAX RESOLVES OF APRIL 12, 1776, WHICH AUTHORIZED NORTH CARO-

LINA DELEGATES IN THE CONTINENTAL CONGRESS TO VOTE FOR INDEPENDENCE.

WHEREAS, the British Government had looked upon the American colonies as a means to increase revenue; and

WHEREAS, the British Crown ignored the cries from its American colonists and overburdened American citizens with unnecessary taxation and restriction of freedoms; and

WHEREAS, the Stamp Act was passed by Parliament in 1765, which was a tax on all transactions of legal papers in the colonies; and

WHEREAS, other taxing measures were adopted by the British Government, such as the Townshend Act and the Tea Tax; and

WHEREAS, the Fourth Provincial Congress meeting in Halifax formulated plans to strengthen the position of the people, on April 12, 1776; and

WHEREAS, the date April 12, 1967, will mark the one-hundred ninety-first anniversary of the adoption of the significant and far-reaching Halifax Resolves; and

WHEREAS, at this very moment an annual commemoration of this historic event is being celebrated in the Town of Halifax;

NOW, THEREFORE, be it resolved by the Senate, the House of Representatives concurring:

Section 1. That North Carolina, in the Town of Halifax, April 12, 1776, 'empowered' the colony's delegates to the Continental Congress, at its meeting in the City of Philadelphia, 'to concur with the delegates of the other colonies in declaring independency . . . '

Sec. 2. That North Carolina thereby was the first of all the thirteen original colonies to take official action for independence.

Sec. 3. That North Carolina by this action preceded by more than one month similar action by Virginia, which was the second state thus to act.

Sec. 4. That through this action North Carolina forged the first link in a chain of events that led directly to the Declaration of Independence on July 4, 1776.

Sec. 5. That this Resolution shall become a part of the public records of the 1967 session of the General Assembly and that copies of this resolution shall be sent to the news media and to any interested groups or individuals, in order that all North Carolinians learn and take pride in the actions of our forefathers in their foresight and patriotic action in striving for independence of the thirteen original colonies.

Sec. 6. All laws and clauses of laws in conflict with this Resolution are hereby repealed.

Sec. 7. This Resolution shall be in full force and effect from and after its ratification."

HOUSE RESOLUTION

The following House Resolution is presented and on motion adopted.

By Representatives Messer and Ramsey of Madison:

"A HOUSE RESOLUTION WITH RESPECT TO THE PROTECTION AND PRESERVATION OF THE EDIBLE AND DELECTABLE WILD MOUNTAIN FOOD COMMODITY CALLED RAMP, AND THE ANNUAL RAMP CONVENTION TO BE HELD IN HAYWOOD COUNTY SUNDAY, APRIL 23, 1967.

WHEREAS, Western North Carolina and particularly Haywood County has for many years claimed to be the Ramp Capital of the world; and

WHEREAS, opinions are being expressed that this delectable wild mountain vegetable is becoming extinct, contrary to views that in every spring there appears to be an over abundance of them; and

WHEREAS, for many years there has existed a domestic corporation with its registered office in Haywood County, styled 'The North Carolina Society of the Friends of the Ramp, Inc.', the chief officer being Secretary of State Thad Eure, which is interested in the protection and preservation of this humble food commodity; and

WHEREAS, the Commissioner of Agriculture, Jim Graham, is alleged to have stated that there was an over production of Ramps last year and, upon being challenged, he has made a thorough investigation and now corrects, clarifies and alleges that his statement proclaimed that 'There *was* an *ample* supply of Ramps last year,' and now asserts that there is an ample supply this year. He has further asserted that even though a tremendous throng will devour untold bushels of Ramps in Haywood County at the Annual Ramp Convention on Sunday, April 23, 1967, such consumption will not contribute too greatly in bringing about the extinction that is feared: NOW THEREFORE, Be it resolved by the House of Representatives:

Section 1. That the 1967 House of Representatives take no action with respect to the Ramp either in glorifying or condemning it, or with respect to any convention or celebration seeking to honor it, until after Sunday, April 23, 1967.

Sec. 2. This Resolution shall be in full force and effect from, after and if it is adopted."

STATEMENT BY MEMBER

“Mr. Speaker and Members of the House:

I rise to oppose this S. B. 2 and ask this House not to concur in the Senate amendments to this so-called ‘Brown Bagging’ measure. Mr. Speaker, they say you cannot tell a book by its cover and that is certainly true in this case.

Some time ago when the Senate sent us the same S. B. 2 it was the ‘wettest’ bill I have ever seen. This House took the bill and made a ‘dry’ bill out of it. I voted for the House version because I was convinced that, instead of liberalizing our present liquor laws, it actually provided more controls and restrictions than has prevailed under the existing law. Now the Senate has changed that. In my opinion the Senate amendments now make this a ‘wet’ bill; they weaken the so-called control features of the bill and they will compound the confusion that now exists in trying to interpret and enforce our ABC laws.

For these reasons, Mr. Speaker, I wish to be recorded in opposing this bill and urge my colleagues to do likewise.

/s/ EARL W. VAUGHN"

HOUSE RESOLUTION

The following House Resolution is presented and upon motion adopted.

By Representative Beatty:

"A HOUSE RESOLUTION CHALLENGING THE SENATE TO A MATCH OF THEIR POOR SKILLS WITH THE SUPERIOR SKILLS OF THE HOUSE IN SOFTBALL.

WHEREAS, it is a generally recognized and well-known fact that members of the North Carolina House of Representatives are possessed of superior physical prowess as well as an unexcelled mental acumen; and

WHEREAS, the House of Representatives is considered an august body of higher potential than that other House of the North Carolina General Assembly; and

WHEREAS, the members of the House of Representatives are confident, sure, certain, and convinced that their talents are unexcelled by those of the members in said other House; and

WHEREAS, everyone rightly assumes that the members of said other House are 'out of shape', stuffy, and lacking the rudimentary physical skill necessary for the game of softball;

NOW, THEREFORE,

Be it resolved by the House of Representatives:

Section 1. That the House of Representatives hereby challenges the Senate to a match of skill in the art of softball to be sponsored by the Raleigh Pirates Wednesday, May 24, at 7:00 p. m.

Sec. 2. That this Resolution shall become effective on its ratification by the House."

HOUSE RESOLUTIONS

The following House Resolutions are presented and upon motion adopted:

By Representatives Bowles and Taylor of Carteret: "A HOUSE RESOLUTION CONCERNING NORWOOD BRYAN, JR., MEMBER OF THE HOUSE OF REPRESENTATIVES FROM CUMBERLAND COUNTY.

WHEREAS, the members of this House are aware that real power in this State Capital—as elsewhere—resides not in the branches legislative, executive, and judicial, but rather derives from the socio-political acumen of legislative wives; and

WHEREAS, said members have demonstrated by individual initiative their support of the institution of marriage; and

WHEREAS, the State of North Carolina—with the advice and consent of this House—has from time to time lent assistance to the State of Matrimony, said assistance taking the form of tax incentives; and

WHEREAS, the lack of a wife afflicts any male legislator with discomobulation so acute as to be overcome only by rectification of the situation, said rectification taking the form of unification; and

WHEREAS, the gentleman from Carver's Falls, Cumberland County, being a 'true, perfect, gentle knight', cognizant of and skilled in the fine arts of courtly love, and having fought too long the good bachelorial fight, has received his summons to join, has ceased tilting at windmills, and has entered the jousts and emerged the victor; and

WHEREAS, said Cumberland Knight has evidenced his awareness of the importance of a friendly press by choosing, pursuing, and winning a lady not only fair to behold but also possessed of influence in the fourth estate, being herself a representative thereof; NOW, THEREFORE, Be it resolved by the House of Representatives:

Section 1. That this body extend its congratulations to Representative Norwood Bryan, Jr., and its commiseration, comfort, and encouragement to Miss Barbara Hauser on the occasion of their engagement, and

Sec. 2. That all members — in particular those errant few not yet supporting Representative Bryan's resolution — be urged to gather in Fayetteville on May 20, 1967, along with their families, friends, and acquaintances, to act as witnesses to the nuptials and celebrators of the coalition.

Sec. 3. This Resolution shall be effective upon its adoption."

By Representative Bowles (by request of the fourth estate).

"A HOUSE RESOLUTION CALLING FOR THE CONTINUED WELL-BEING OF THE HAND THAT FEEDS US.

WHEREAS, the North Carolina General Assembly convenes for barely more than 120 agonizing days per biennium; and

WHEREAS, our livelihood depends on its continued activity during that period; and

WHEREAS, one member of the General Assembly has helped to extend that period by sponsoring many time-consuming bills; and

WHEREAS, each bill helps some member of the fourth estate justify his existence; and

WHEREAS, it has come to the attention of members of the fourth estate assigned to cover the activities of members of the North Carolina House of Representatives that one of the subjects of vigilant scrutiny is about to embark on a strange new adventure; and

WHEREAS, some reputed experts have said such adventure will contribute to that subject's continued well-being; and

WHEREAS, the normal and infamous cynicism of the fourth estate is subject to momentary suspension under House Rule Number 59;

NOW, THEREFORE, BE IT RESOLVED BY MEMBERS OF THE HOUSE PRESS CORPS AND TELEVISION AND RADIO PERSONALITIES, THAT:

Section 1. The best wishes of the fourth estate are extended to the distinguished Representative from Cumberland County, the Honorable Norwood Bryan, Jr.

Sec. 2. Miss Barbara Hauser is hereby banned from membership in the House Press Corps and/or acceptance as a television or radio personality for accepting the offer of a subject of vigilant scrutiny.

Sec. 3. Miss Barbara Hauser is hereby offered heartiest congratulations by said members of the fourth estate and wished a long tenure in office.

Sec. 4. This Resolution shall be effective upon its adoption."

NINETY-NINTH DAY

HOUSE OF REPRESENTATIVES
Friday, June 2, 1967

The House meets pursuant to adjournment and is called to order by Mr. Speaker Britt.

Prayer is offered by the Reverend Alphonso Jordan, House Chaplain.

Representative Auman, for the Committee on the Journal, reports the Journal of yesterday has been examined, found correct, and without objection the same stands approved as written.

On motion of Representative Andrews the courtesies of the floor are extended the Honorable Jack Moody, a former member of the House from Chatham County.

A leave of absence is granted Representative Ervin for today.

A leave of absence for Monday night is granted Representatives Kincaid, Staton, Bowles, Mohn, Ragsdale, and Mills of Onslow.

On motion of Representative Mills of Anson the statement made on Friday, May 26, 1967, by Representative Hamrick is ordered spread upon the Journal.

STATEMENT BY MEMBER

"I have read in the morning press that the professional organizations for teachers in Forsyth County called yesterday for teachers in my county to invoke sanctions. They issued a statement advising teachers not to seek employment in that local system because of 'unsatisfactory educational conditions detrimental to the teaching profession and to the school children of this community'.

I find it difficult to find the words to express my regrets with this action. Our school board chairman issued a statement in which he stated that the contention of the teacher organizations is 'unfair, untrue and irresponsible'. I am in complete agreement with those sentiments.

It is my opinion that the actions of these organizations do not reflect the feeling of the citizens of Forsyth County, and I have good reason to believe that they do not reflect the feeling of a great many of our dedicated public school teachers in my county.

There are some persons in the professional organizations who have seen fit to criticize our local citizens, to criticize our school board, to criticize the Governor, and to criticize the members of this Legislature because of an alleged failure to do more for public school teachers in the way of compensation. Unfortunately, there are others including certain elected officials who have aided and abetted in this kind of irresponsible criticism.

I have seen the problems which this General Assembly has had to wrestle with in the past few years dealing with public education. It has not only had to wrestle with problems arising within this state but with many problems which have originated outside of our boundaries and particularly from Washington, D. C. I have also seen what the General Assembly has done and is doing for public education in this state. I have seen it put more of its resources into public education than almost any other state in the Union. I have also seen what the citizens of my county have done for public education. They now provide the second largest school system in the state and are second from the top in the total pay provided for its teachers.

I strongly resent the action taken in Forsyth County yesterday at a time when this General Assembly is wrestling with the problems of continuing the improvement of our educational system. I also resent the reckless and irresponsible statements by some of our elected officials which serve to give aid and comfort to this conduct.

I believe that these sentiments express the views of a large majority of the people of Forsyth County whom I am pleased to represent, and I wanted to have them expressed here."

HOUSE RESOLUTIONS

The following House Resolutions are presented:

By Representatives Exum, Phillips, and Chase: "A HOUSE RESOLUTION DIRECTING THE LEGISLATIVE RESEARCH COMMISSION TO MAKE OR CAUSE TO BE MADE A STUDY OF A STATEWIDE INSPECTION AND LICENSING PROGRAM FOR CHILD CARE FACILITIES IN NORTH CAROLINA.

WHEREAS, more mothers in North Carolina are entering the labor market each year and are required to leave their children in the care of other persons and facilities part time each day; and

WHEREAS, these facilities are not presently required to meet any statewide health, safety, sanitary or other standards in the care which they provide for the children of others; and

WHEREAS, there are many diversified types of child care facilities throughout the state ranging from facilities conducted in private homes caring for small numbers of children by one person to large corporate enterprises caring for large numbers of children in buildings especially constructed for this purpose; and

WHEREAS, the nature of the standards and the method of enforcement has been demonstrated to be extremely complex and there exist some controversy over the nature of standards to be required, the method of enforcement, and the appropriate administering agency; NOW THEREFORE, Be it resolved by the House of Representatives:

Section 1. The Legislative Research Commission is hereby authorized and directed to make a thorough study of a statewide inspection and licensing program for child care facilities to the end that, if feasible, appropriate legislation establishing such a program may be enacted in North Carolina. The Commission shall report its findings and recommendations to the 1969 Session of the General Assembly.

Sec. 2. This Resolution shall become effective upon its adoption."

On motion of Representative Exum the resolution is adopted.

By Representative Beatty: "A HOUSE RESOLUTION REQUESTING THE LEGISLATIVE RESEARCH COMMISSION TO STUDY ADVISABILITY OF INCLUDING DOMESTIC EMPLOYEES UNDER MINIMUM WAGE LAW.

WHEREAS, many employees of North Carolina are included in the provisions of the Minimum Wage Laws enacted by the Congress of the United States; and

WHEREAS, many other employees are included in the provisions of the Minimum Wage Laws enacted by the General Assembly of North Carolina; and

WHEREAS, a large number of people employed in homes in North Carolina, and usually referred to as domestic employees, are not covered by the provisions of the Federal Minimum Wage Laws or the State Minimum Wage Laws; NOW THEREFORE, Be it resolved by the House of Representatives:

Section 1. That the Legislative Research Commission study the advisability of extending the State Minimum Wage Laws to include domestic employees.

Sec. 2. That said Commission report its findings and recommendations to the 1969 Session of the General Assembly.

Sec. 3. This Resolution shall become effective upon its adoption."

The resolution fails of adoption.

STATEMENT BY MEMBER

"July 3, 1967

Mr. Speaker and Members of the House:

I feel compelled to bring before this Body, and to be recorded in the Journal, a report on a personal experience of the past Friday, June 30th. Having left Raleigh about 3:20 p.m. for my home just west of Winston-Salem, I was approaching Kernersville, North Carolina, from the east on 1-40 about 5:05 p.m. Just prior thereto a mist rain began to fall. Traffic was very heavy but moving generally about 60 miles per hour. I turned on my head lamps and windshield wiper moved into the right hand lane and continued for two or three miles approaching the curve at Kernersville. Just prior to reaching the curve and accompanied by other traffic, there developed a sudden and dense rain squall together with severe wind turbulence. Suddenly, although at a reduced speed my car, a 1965 Pontiac Catalina began to skid at the downhill point of the unbanked curve. The rear wheels skidded to the left throwing the car crossways to the roadway, the front wheels partially leaving the highway. After skidding this way for about 75 feet my car struck a metal post with severe impact at the left front door, which caused the car to completely reverse itself. The rear wheels then skidded in a complete half moon off the highway across the road bank, down an incline striking a heavily reinforced metal shoulder protection guard. The impact was so severe as to completely demolish the right side of the car. The car then additionally skidded backwards into a ravine separating the road bank from the highway shoulder effectively pinning me in as both doors were not only crushed but also jammed in on both sides by the steep banks. The rain continued rather heavily. I was not injured but could not get out. I sat there about ten minutes while traffic continued to roll by. No one stopped during this time or even slowed down. It was difficult to see me because of the sharpness of the curve or to fully recognize immediately my predicament. Finally a Roadway Express Truck passed me, stopped and backed up and assisted me in getting out of the car. Upon getting out of my car I discovered that just a hundred or two feet ahead of me two other automobiles had gone off the road also on the left hand side of the road down a steep embankment. Fortunately, no one was killed but there was personal injury and considerable damage to the other two vehicles. My auto, while not a total loss, will require about \$600.00 to \$800.00 to repair.

I recite this incident Mr. Speaker, for three reasons;

1. A great deal has been said in the General Assembly pro and cons about seat belts. I am satisfied that a seat belt tightly adjusted about my body definitely saved me from death or severe injury.

2. I wish by this report to warn members of this Body and all other citizens of the extreme danger of the curve on Interstate 40 at Kernesville.

3. I wish to advise this Assembly that the section of 1-40 is one of our most recently built links, and that in view of all of the modern know how and engineering knowledge and experience statistics available it is beyond understanding as to why or how such an ill designed curve would be built on such a heavily traveled highway. The section by-passing Kernersville was hardly opened when it became immediately necessary to display all manner of warning signals, etc. I am told that to date five or more people have lost their lives, with great property damage and untold injuries as a result of this poorly designed section of highway. I have no idea of whom is responsible for construction or design, but it is totally evident by experience so far that incompetence abounds somewhere in either our highway engineering or federal cooperating engineers, or both. I submit that the efforts of the General Assembly towards highway safety can and is being negated by such incompetence.

I am told also that it would require an expenditure of about \$250,000.00 to correct this obvious irresponsibly built curve. I have no idea what a human life is worth in dollars and cents, but if 5 persons lives are worth \$50,000.00 each, not counting the heavy losses in injury and property, we have already more than paid for the Highway Engineers' mistakes in blood and money. My hope is that by this public statement immediate steps can be taken to assure that those that have suffered and died shall not have done so in vain.

Signed: Ed M. McKnight"

Representative High sends forward the following conference report:

CONFERENCE REPORT

"TO: THE PRESIDENT OF THE SENATE AND THE SPEAKER OF

HOUSE RESOLUTION

The following House Resolution is presented and upon motion adopted.

By Representatives Johnson of Wake, McMillan of Wake, Bunn, Twiggs, and Greenwood:

A RESOLUTION TO COMMEND THE STATE BOARD AND DEPARTMENT OF PUBLIC WELFARE FOR THEIR COMMUNITY SERVICES DEMONSTRATION PROJECT AND ENCOURAGE ITS CONTINUATION.

WHEREAS, the State of North Carolina recognizes the necessity for searching for new approaches to the meeting of the needs of its citizens; and

WHEREAS, the State of North Carolina cannot be satisfied with an approach that treats dependency as something to be simply endured and supported, but wishes rather to treat poverty as a condition to be prevented and cured; and

WHEREAS, the State of North Carolina believes that this can be done most effectively and with the greatest economy to its taxpayers by an attempt to provide more efficient use of the programs already in effect in our local communities by coordination and cooperation of the agencies administering these programs, and by the motivation of recipients of the services so as to prevent abuse and encourage self-help; and

WHEREAS, it is consistent with the democratic system of government to provide opportunity for local leadership to influence the direction such effort takes; and

WHEREAS, the Community Services Demonstration Project in the North Carolina State Department of Public Welfare is an effort to prove that local communities can effectively follow a self-help approach to its problems and is making substantial progress in this direction; and

WHEREAS, the North Carolina State Board of Public Welfare and the professional staff of the North Carolina State Department of Public Welfare has provided leadership and encouragement that has produced such programs as P.A.C.E.I.N.C. (Plan Assuring College Education in North Carolina) which is providing opportunity for 1,592 students to work in their own communities this summer to earn funds for use toward their college costs, while they help serve their home counties; and

WHEREAS, despite the fact that funds in North Carolina were insufficient to support this project, it is felt that such a project should be continued if at all possible.

Be it resolved by the House of Representatives:

Section 1. The North Carolina State Board of Public Welfare and the staff of the North Carolina State Department of Public Welfare be commended and encouraged to find whatever sources of financial assistance it can to perpetuate this approach.

Sec. 2. This Resolution shall be effective upon its adoption.
